General advice — First aider needs to protect himself.
Take off all contaminated clothing immediately.

Inhalation — When inhaled remove to fresh air and seek medical aid.
If unconscious place in recovery position and seek medical advice.

Skin contact — Rapid evaporation of the liquid may cause frostbite.
In case of contact with liquid, thaw frosted parts with water, then remove clothing carefully.
Wash with plenty of water
Wash contaminated clothing before re-use.
Consult a physician.

Eye contact — Protect unharmed eye.
Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.
Call a physician immediately.

Ingestion — Is not considered a potential route of exposure.

---

5. FIRE FIGHTING MEASURES

Suitable extinguishing media:

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Specific hazards during fire fighting:

Slightly flammable.
Some risk may be expected of corrosive and toxic decomposition products.
In case of fire hazardous decomposition products may be produced such as:
Carbon monoxide, Hydrogen halides, Carbonyl halides

Cool closed containers exposed to fire with water spray.
Heating will cause pressure rise with risk of bursting and subsequent explosion.

Special protective equipment for fire-fighters:
Wear self-contained breathing apparatus and protective suit.

Further information:
In case of fire: Evacuate area. Fight fire remotely due to the risk of explosion.

---

6. ACCIDENTAL RELEASE MEASURES

Personal precautions:
Keep people away from and upwind of spill / leak.
Ventilate the area.
Wear self-contained breathing apparatus and protective suit.

Environmental precautions:
The product evaporates readily.
Prevent product from entering drains.

Methods for cleaning up:
Use low-sparking handtools and explosion-proof electrical equipment.
Allow to evaporate.

Additional advice:
Inform the responsible authorities in case of gas leakage, or of entry into waterways, soil or drains.
Pay attention to the spreading of gases especially at ground level (heavier than air) and to the direction of the wind.

For personal protection see section 8.
