LIFTING AND WORKSHOP TECHNOLOGY

MAIN CATALOGUE 2019

UNICRAFT lifting gear and workshop equipment

Dear Customer,

Our aim is to facilitate your work.

When you purchase UNICRAFT products, you can look forward to lifting gear and workshop equipment that meets your requirements in terms of ease of use, equipment level, quality and engineering. On top of this the complete range of UNICRAFT products impresses with its extraordinary price-performance-ratio.

Thanks to our network of specialist retailers, you will always find a local partner happy to offer you advice, hands-on support and after-sales service.

And, of course, our team of experts is there to help you at any time.

Kilian Stürmer
Managing Directors

Robert Stürmer
Head of Group Sales

"With brand-name products from the STÜRMER Group, you can always be sure of making the right purchasing decision."

A price comparison among genuinely equivalent and comparable products offers you the assurance that purchasing a brand-name product by STÜRMER gives you a product that stands comparison in terms of ease of use, features, quality, engineering and price-performance and the right purchasing decision for you.

Expert advice before buying, after-sales service and a reliable supply of spare parts after purchase, protect the STÜRMER customer's investment for many years.

STÜRMER demonstration and training centre

At our newly opened demonstration centre at our main facility in Hallstadt, near Bamberg, you can experience many of our highlights live on a floor space of some 2 000 m². Four customer advisors are available to help you with their expert knowledge.

What you can look forward to

Approx. 2 000 m² of training and exhibition floor space

- ▶ 150 machines permanently available to demonstrate to you
- ▶ An excerpt of the most important machines from each sector of our product portfolio

STÜRMER also provides product training for its retail partners at our company headquarters in Hallstadt.

At our specially equipped training and presentation rooms, retailers learn the key facts about STÜRMER products, and the unique selling points compared with third-party products.

Many machines are presented, demonstrated and explained in our exhibition space. Hands-on training is guaranteed.

Up to 60 persons can be brought along to dealer-specific meetings and training sessions.

The company's own bistro for a cosy way to wind up meetings, discussions and training sessions.

SLD Logistics Centre

In early April 2014, operations started in our new logistics centre. At the company site in Pettstadt near Bamberg (15 km from head office) with some 50 000 m², the new logistics centre was created with 20 000 m² of hall floor space: another milestone in the history of the STÜRMER Group.

The objective was to improve delivery quality in all respects, and thus offer our esteemed business partners tangibly increased benefits.

Our objectives are your benefits!

Our logistics centre stocks more than 360 000 articles. This allows for fast shipment of almost all of our products to Germany and throughout Europe. Qualified staff ensure the orderly delivery of the goods. Every year, more than 100 000 items leave the company's premises, with our own delivery vehicles, by carrier, or by parcel service.

Air compressors

22 000 m² of warehouse space

The SLD STÜRMER Logistics Centre:

- Own fleet of five trucks
- 20 000 pallet bays
- 2 500 bays for small parts
- 22 000 m² of warehouse space
- 52 qualified warehouse clerks and trainees
- Approx. 9 450 shipments per month
- Approx. 20 m euro worth of goods in stock at all times

More than 500 000 items ready for delivery:

Around 21 000 machines
Around 235 000 accessories
Around 250 000 spare parts
(Valid since 1st August 2018)

The most important success factors

- › Rapid availability thanks to high storage capacity
- › Fast loading and turn-around times thanks to storage bay management and path optimisation
- › Ensured quality thanks to scanner-based methods
- › Huge improvement in the permeability of the outgoing goods process

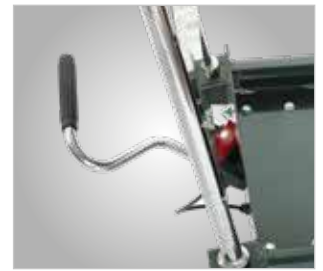

Lifting platforms & pallet trucks

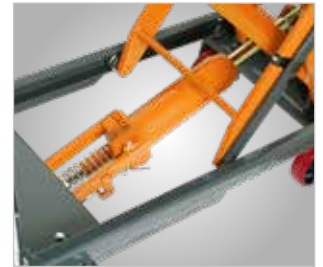

Hydraulic scissor lift

FHT – Mobile scissor lift platform with 500 kg load-bearing capacity

- ▶ Robust steel design
- ▶ For flexible and comfortable working
- ▶ With an easy-to-operate foot pedal for raising the table hydraulically to the desired height
- ▶ Separate foot pedal for lowering the table
- ▶ Robust rollers with safety wheel guard and brakes on the two steering rollers for enhanced safety during loading and unloading
- ▶ The relief valve protects the operator and the pump

▶ Easy-to-operate hydraulic foot pedal

▶ Hydraulic lifting and lowering device

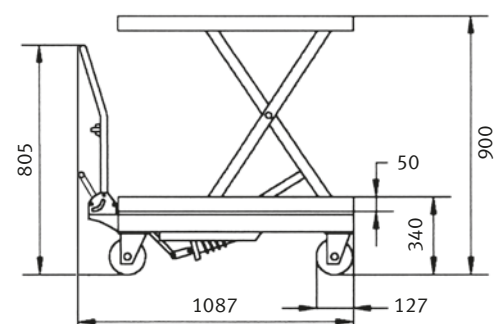

▶ Robust rollers with safety wheel guard and brakes on the two steering rollers for enhanced safety during loading and unloading

▶ Easy and conveniently operable table lowering

Model	FHT 500
Art. no.	6150500
Technical specifications	
Load-carrying capacity	0.5 t
Platform dimensions	855 x 500 x 50 mm
Total length	1087 mm
Lifting range	340 - 900 mm
Grip height	805 mm
Stroke per pump action	13 mm
Roller Ø	127 mm
Weight	87 kg

SHT series – Hydraulic compact scissor lift platform

- ▶ For ergonomic working at an optimum working height
- ▶ With closed platform
- ▶ Separate control unit with 3-metre cable, control buttons and emergency stop switch
- ▶ Infinitely variable lifting and lowering
- ▶ Stable, powder-coated steel design
- ▶ Guaranteed stability
- ▶ Circumferential safety rails
- ▶ Fulfils the safety criteria of EN 1570
- ▶ High-pressure cylinder with dual-safety function

Model	SHT 1000	SHT 2000
Art. no.	6154100	6154200
Technical specifications		
Load-carrying capacity	1 t	2 t
Platform dimensions	1 300 x 800 mm	1 300 x 800 mm
Lifting time	25 s	40 s
Lifting speed loaded	40 mm/s	22 mm/s
Services	0.75 kW	0.75 kW
Lifting range	190 - 1 010 mm	190 - 1 010 mm
Weight	220 kg	280 kg

SHT G & U series - Compact-height lifting tables

SHT 1001 U model with U-shaped platform

- ▶ For ergonomic working at an optimum working height
- ▶ With closed platform
- ▶ SHT 1001 G including loading ramp - for easy moving in and out with pallet truck
- ▶ Separate control unit with 3-metre cable, control buttons and emergency stop switch
- ▶ Infinitely variable lifting and lowering
- ▶ Robust steel design for optimum stability
- ▶ Fulfils the safety criteria of EN 1570
- ▶ Chrome-plated piston rods
- ▶ SHT 1001 U model with U-shaped platform ensures easy access with pallet lifting truck

Model	SHT 1001 G	SHT 1001 U
Art. no.	6153100	6153101
Technical specifications		
Load-carrying capacity	1 t	1 t
External dimensions of platform	1 450 x 1 140 mm	1 450 x 1 140 mm
Internal dimensions of platform	-	1 050 x 585 mm
Lifting time	18 s	18 s
Lifting speed loaded	42 mm/s	42 mm/s
Services	0.75 kW	0.75 kW
Electrical connection	400 V / 3 Ph / 50 Hz	400 V / 3 Ph / 50 Hz
Current type	AC	AC
Lifting range	82 - 760 mm	80 - 760 mm
Weight	250 kg	235 kg

SHT 1001 G

SHT 1001 U

Professional pallet truck

PHW Series – Professional pallet truck in stable, robust quality for demanding daily use – also available with short and long forks

- ▶ Robust fully-hydraulic lifting and lowering device
- ▶ Smooth-action hydraulic pump with hard chrome-plated piston and pressure relief valve
- ▶ Lowering speed infinitely variable thanks to release valve with granular control
- ▶ Highly stable, torsion-resistant monocoque design of frame and forks
- ▶ Ergonomically shaped drawbar, non-slip with additional plastic coating
- ▶ Three functions operable via one-hand lever (lifting, lowering, neutral position)
- ▶ Easy to move even heavy loads thanks to super quiet aluminium steering rollers with solid rubber tyres and tandem fork rollers made of polyurethane
- ▶ Precision ball bearings in all wheels and rollers

Pallet truck with weighing device and printer

PHW W / WP series

PHW 2000 W

- ▶ Self-explanatory large 4-button control panel with tactile click
- ▶ Also very easy to operate when wearing gloves
- ▶ Weight display in 1 kg steps

PHW 2000 WP

- ▶ PHW 2000 WP including integrated printer for weight output

PHW W / WP series – Professional pallet truck with 2 t load-bearing capacity and integrated electronic weighing device. “WP” version additionally with integrated printer

- ▶ Aluminium steering rollers with full-rubber tread, PU tandem fork rollers, precision ball bearings
- ▶ Integrated electronic scales protected by steel housing
- ▶ With a large, six-digit LCD display for pounds or kilograms and grams, also easily readable from the side
- ▶ With error message display
- ▶ Electronic parts for reliability, DIN IP65-protected against humidity and dust
- ▶ Reliable at temperatures from -10° to 40° C and 10 % to 95 % relative humidity
- ▶ Tare correction, gross/net weight, total weight and totalling function for serial weighing
- ▶ Power supply via 4 AA 1.5V batteries

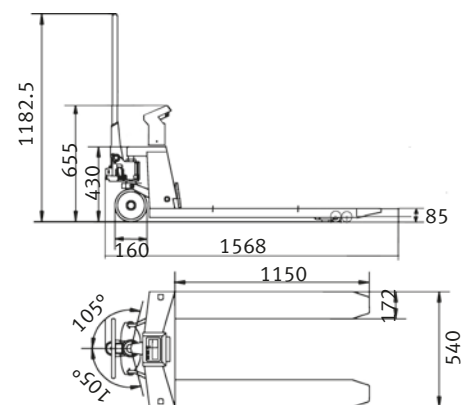

PHW 2000 W

PHW 2000 WP

- ▶ Additionally with integrated printer

PHW 2000 W, PHW 2000 WP

- ▶ The lift, quick lift, and lower functions, and neutral position are set via the one-hand lever
- ▶ Optimum comfort due to plastic coating

- ▶ Fully-hydraulic lifting and lowering device with hard chrome-plated 3-part piston and pressure relief valve
- ▶ The lowering speed is automatically reduced for heavy loads
- ▶ Fast mechanical lifting stroke to reach maximum fork height

- ▶ During pumping, the lifting truck is supported by its factory-standard support feet as of a certain height. This ensures stability and stops the lifting truck rolling away

- ▶ The PHH 1001 is universally deployable thanks to its low chassis height of just 430 mm

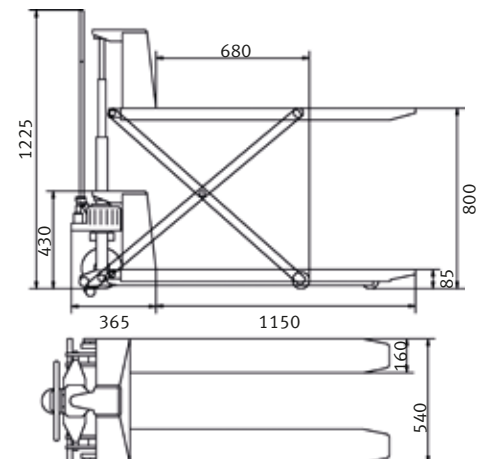

PHH 1001 - Combined scissor pallet truck

The mobile lifting platform with a load-bearing capacity of 1 t

- ▶ Robust fully-hydraulic lifting and lowering device
- ▶ Smooth-action hydraulic pump with hard chrome-plated piston and pressure relief valve
- ▶ Lowering speed infinitely variable thanks to release valve with granular control
- ▶ Quickly reaches the max. fork height thanks to mechanical fast stroke
- ▶ Stable, torsion-resistant monocoque design of frame and forks
- ▶ Easily manoeuvrable thanks to steering angle of up to 210°
- ▶ Ergonomically shaped drawbar, with additional plastic coating
- ▶ Move heavy loads easily by switching from pumping to neutral position
- ▶ Extremely quiet action thanks to aluminium steering rollers with full-rubber treads
- ▶ Plastic load rollers
- ▶ Maintenance-free precision ball bearings in all wheels and rollers

Model	PHH 1001
Art. no.	6150100
Technical specifications	
Load-carrying capacity	1 t
Load bearing width	540 mm
Fork width	160 mm
Fork length	1 150 mm
Lifting range	85 - 800 mm
Chassis height	430 mm
Steering angle	210°
Steering rollers (Ø x width)	180 x 50 mm
Fork rollers (Ø x width)	74 x 50 mm
Dimensions (L x W x H)	1 515 x 540 x 1225 mm
Weight	122 kg

Scissor pallet trucks

PHH 1003 E - Combined scissor pallet truck with electrohydraulic lifting device and 1 t load-bearing capacity

- ▶ Robust electro-hydraulic lifting and lowering device
- ▶ Hydraulic pump with hard chrome-plated piston and pressure relief valve
- ▶ Dual use as electric or manually-driven scissor pallet truck, e.g., while charging the battery
- ▶ Manual lowering; smooth, continuous lowering speed adjustment thanks to release valve with granular control
- ▶ Stable, torsion-resistant monocoque design of frame and forks
- ▶ Ergonomically shaped drawbar, with additional plastic coating
- ▶ Extremely quiet action thanks to aluminium steering rollers and fork rollers with polyurethane covered full rubber tread
- ▶ Maintenance-free precision ball bearings in all wheels and rollers
- ▶ Maintenance-free battery with an operating time of five hours (12 V/60 Ah) as standard
- ▶ Battery can be charged via any 230-V socket

- ▶ The ergonomically shaped drawbar supports single-handed operation and is also plastic-coated for optimum convenience

- ▶ Robust electro-hydraulic lifting and lowering device
- ▶ The lowering speed is automatically reduced for heavy loads to avoid damage
- ▶ LED battery charge display

- ▶ Premium, smooth-action hydraulic pump with hard chrome-plated piston and pressure relief valve

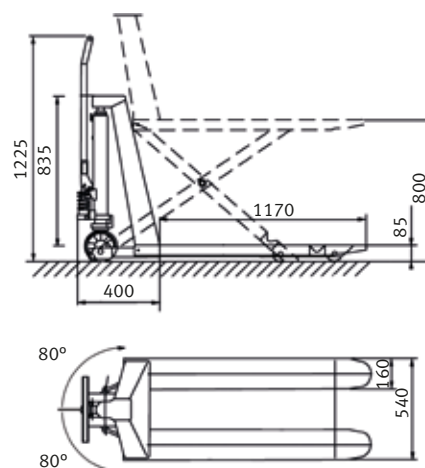

- ▶ During pumping, the lifting truck is supported by its factory-standard support feet as of a certain height. This ensures stability and stops the lifting truck rolling away

Model	PHH 1003 E
Art. no.	6150104
Technical specifications	
Load-carrying capacity	1 t
Load bearing width	540 mm
Fork width	160 mm
Fork length	1 170 mm
Lifting range	85 - 800 mm
Steering angle	160 °
Turning radius	1 564 mm
Steering rollers (Ø x width)	180 x 55 mm
Fork rollers (Ø x width)	75 x 50 mm
Dimensions (L x W x H)	1 715 x 540 x 1 254 mm
Weight	152 kg
Electrical data	
Lift motor output	0.8 kW
Battery voltage	12 V
Battery rated capacity	60 Ah
Battery weight	24 kg

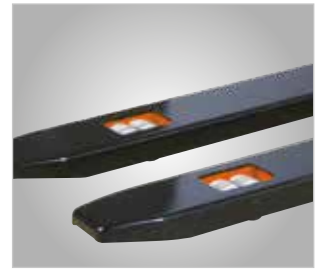

GHHW 1000 – Perfect for loading and unloading vehicles

- ▶ Facilitates handling and transport in the warehouse and at the workplace
- ▶ Dual use for stacking and short transport tasks
- ▶ No sparks due to static charge and no electromagnetic fields; thus also suitable for flammable or explosive materials
- ▶ Robust steel section design with premium welds
- ▶ Fixed fork width for stable lifting of the load
- ▶ Economically designed lifting device with manually-actuated hydraulic pump
- ▶ Easily fits through doors and cramped warehouses thanks to its compact design
- ▶ Equipped with low-wear rollers and rotating, ball-bearing borne, nylon rear wheels for easy action
- ▶ Durably precision-engineered
- ▶ The lifting function is easy to use thanks to foot and hand levers

- ▶ Foot pedal takes the hard work out of lifting

- ▶ Rugged design with large steering rollers and twin polyurethane load-bearing rollers
- ▶ No sparks due to static charge and no electromagnetic fields; thus also suitable for flammable or explosive materials

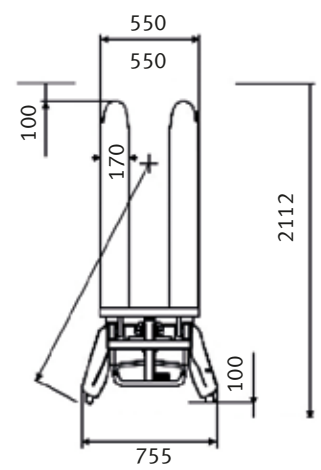

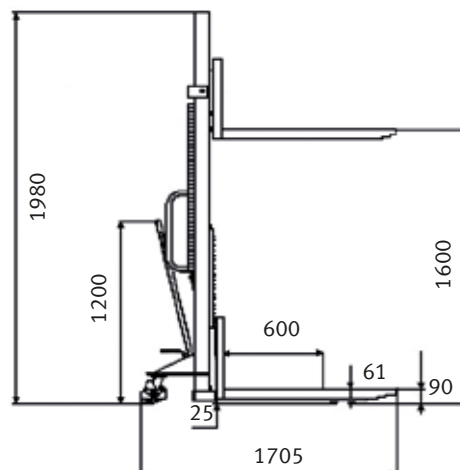

- ▶ Ergonomically shaped handle for single-handed operation
- ▶ Optimum comfort due to plastic coating

Weight	230 kg

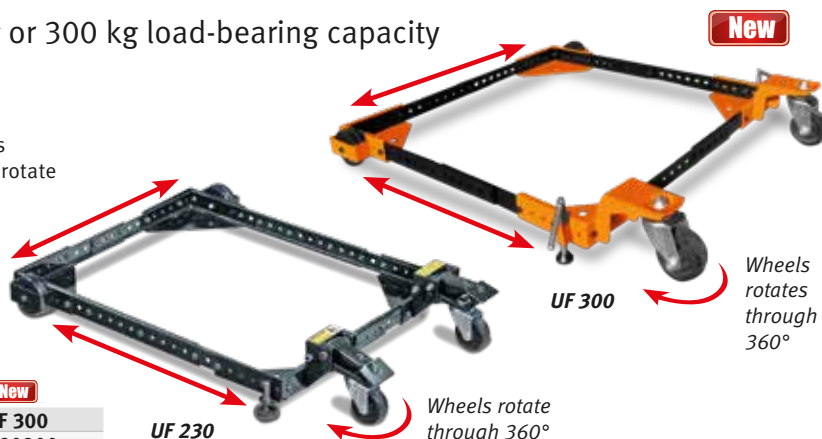

Transportation aids

UF 230 – Universal chassis with 230 kg or 300 kg load-bearing capacity

- ▶ Chassis with variably adjustable load platform
- ▶ For easy transport and relocation of machines
- ▶ Grid supports many different load platform size settings
- ▶ Easy to manoeuvre thanks to two steering rollers which rotate through 360°
- ▶ With vibration damping feet (UF 230)
- ▶ Safe and stable design
- ▶ Fast and easy assembly

Model	UF 230	UF 300
Art. no.	6190230	6190300
Technical specifications		
Load-bearing capacity	230 kg	300 kg
Square load platform min.	280 x 280 mm	345 x 345 mm
Square load platform max.	890 x 890 mm	730 x 730 mm
Rectangular load platform min.	430 x 280 mm	-
Rectangular load platform max.	1 290 x 480 mm	-
Hole spacing	25 mm	25.4 mm
Weight	7.7 kg	9 kg

Typical applications

- ▶ For easy moving of band saws, sanding machines, planes, drills, etc. (machines not included in scope of supply)

HR 1000 – Lifting roller set with 1 t load-bearing capacity

- ▶ For transporting heavy objects such as cabinets, etc.
- ▶ Electro-galvanised steel sheet frame
- ▶ Contact surface rubber coated
- ▶ Wheel with polyurethane tyres

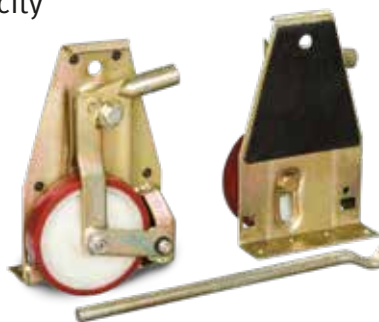

Scope of delivery:

- › Two lifting rollers
- › One lever bar

Model	HR 1000
Art. no.	6191000
Technical specifications	
Load-bearing capacity	1 t (per set)
Polyurethane wheelset	138 x 28 mm
Claw height bottom	12 mm
Claw height top	50 mm
Weight	approx. 10 kg (per set)

Easy handling:

- ▶ Lift the load with the lever bar
- ▶ Push the claw on the lifting roller underneath
- ▶ Lift the load by using the lever bar to switch the eccentric lever
- ▶ Follow the same steps with the second lifting roller on the other side

Application example

- ▶ Perfectly suited for easy load shifting (cabinet not included in scope of supply)

SAK, STK, STK Alu – Hand trucks and stacker trucks made of steel or aluminium

SAK – Hand trucks made of tubular steel

- ▶ Robust welded design with steel sheet ledge
- ▶ Convenient use
- ▶ Premium materials and first-class workmanship guarantee best in class handling and a long service life
- ▶ Powder-coated tubular steel
- ▶ Wheels with pneumatic tyres and plastic rims

STK – Stacker truck made of tubular steel

- ▶ Practical steel tube truck with steel sheet ledge
- ▶ Including plastic step slip edge
- ▶ Robust welded, powder coated tubular steel
- ▶ Wheels with pneumatic tyres and plastic rims

STK Alu – Tubular aluminium stacker truck

- ▶ Including plastic step slip edge
- ▶ Very light and practical
- ▶ Wheels with pneumatic tyres and plastic rims

Model	SAK	STK	STK Alu

Transport rollers/lever bars

ETR 4/150 – Corner transport roller set with 150 kg load-bearing capacity

- ▶ For fast and easy moving of box-shaped objects and furniture
- ▶ Low loading height for safe transport
- ▶ Housing made of welded steel sheet
- ▶ Loading surface with anti-slip mat

Model	ETR 4/150
Art. no.	6197150
Technical specifications	
Load-bearing capacity	150 kg/pc.
Dimensions (L x W x H)	255 x 255 x 85 mm
Loading height	15 mm
Weight	2 kg/pc.

Rotate through 360°

Scope of delivery:

- › Four corner rollers
- › Three solid rubber steering rollers per corner roller

Application example
Perfectly suited for easy shifting of box-shaped objects (cabinet not included in scope of supply)

HS Series – Lever bars with 1.5 t and 5 t load-bearing capacity

- ▶ Solid steel bar for maximum stability
- ▶ Easy-action steel rollers

Model	HS 1.5	HS 5
Art. no.	6196015	6196050
Technical specifications		
Load-carrying capacity	1.5 t	5 t
Lever length	2 000 mm	2 000 mm
Number of rollers	2	2
Roller size	70 x 54 mm	70 x 54 mm
Weight	approx. 16 kg	approx. 32 kg

TR Series – Transport rollers with 3 t and 6 t load-bearing capacity

- ▶ For easy and safe shifting of heavy objects
- ▶ Large ball-bearing borne nylon rollers and anti-slip rubber surface

Model	TR 3	TR 6
Art. no.	6193030	6193060
Technical specifications		
Load-carrying capacity	3 t	6 t
Dimensions (L x W x H)	400 x 228 x 100 mm	420 x 340 x 120 mm
Number of rollers	4 each	6 each
Roller size	85 x 90 mm	85 x 85 mm
Weight	approx. 9.5 kg	approx. 12 kg

VTR Series – Adjustable transport rollers

- ▶ Set of 2
- ▶ Large ball-bearing borne nylon rollers
- ▶ Adjustable using 2 steel bars from 500 mm to 1 400 mm (VTR 6) or from 720 mm to 1 500 mm (VTR 12)
- ▶ Anti-slip rubber surface

Model	VTR 6	VTR 12
Art. no.	6192060	6192120
Technical specifications		
Load-carrying capacity	6 t	12 t
Dimensions (L x W x H)	320 x 268 x 110 mm	420 x 268 x 110 mm
Number of rollers	4 each	6 each
Roller size	85 x 90 mm	85 x 90 mm
Weight (per block of rollers)	approx. 30 kg	approx. 38 kg

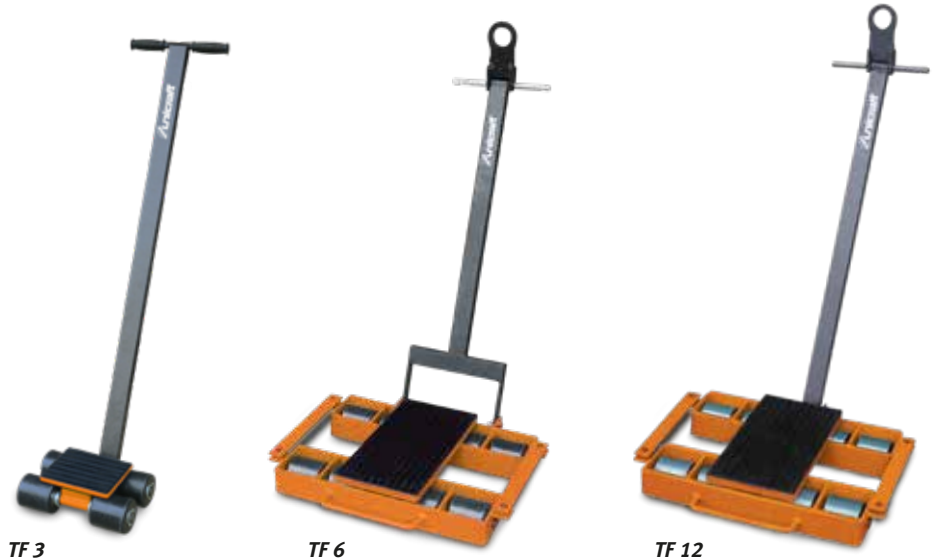

Scope of delivery:

- › Two transport rollers with two steel rods
- › Transport rollers can be connected up to a length of 1.40 m (VTR 6) or 1.50 m (VTR 12)

TF Series – Transport chassis

- ▶ For easy and safe transport and relocation of heavy objects and machines
- ▶ With pivoting carrier plate (single for TF 3, dual for TF 6 and TF 12) and drawbar for easy manoeuvring around corners
- ▶ Carrier plate with anti-slip rubber surface

Model	TF 3	TF 6	TF 12
Art. no.	6191030	6191060	6191120
Technical specifications			
Load-carrying capacity	3 t	6 t	12 t
Dimensions without drawbar (L x W x H)	295 x 230 x 104 mm	640 x 534 x 115 mm	640 x 566 x 115 mm
Support surface	185 x 150 mm	220 x 400 mm	220 x 400 mm
Number of rollers	4	8	8
Roller size (Ø x W)	85 x 90 mm	85 x 90 mm	83 x 95 mm
Weight	approx. 15 kg	approx. 50 kg	approx. 66 kg

TR 20 – Transport roller set with 20 t load-bearing capacity

- ▶ Flexibly deployable for moving heavy loads
- ▶ Easy to steer with turning circle of 3 m
- ▶ Suitable for short transport routes
- ▶ Set consists of a steering unit and chassis for easy self-assembly

Model	TR 20
Art. no.	6195020
Technical specifications	
Load-carrying capacity	20 t
Transport/installation height	108 mm
Roller diameter	18 mm
Weight	approx. 50 kg

Scope of delivery:

- › 4 transport rollers
- › 2 turntables with rubber mat Ø 130 mm
- › 2 carrier plates with rubber mat 120 x 120 mm
- › 2 connecting rods
- › 2 steering rods
- › 1 metal box with rollers and handles
- › 1 drawbar for the metal box

Vehicle jacks

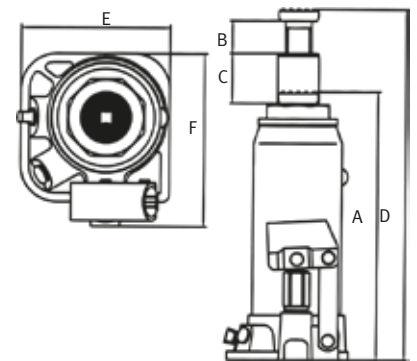

HSWH Series – Hydraulic bottle jacks with 3 t or 5 t load-bearing capacity

- ▶ Jack with grooved lifting pad and screw extension
- ▶ Extremely durable cylinder
- ▶ Very low insertion height in lowest position
- ▶ Extremely stable and tilt-safe thanks to large special cast base plate for added stability
- ▶ Easy-action, two-part pump rocker arm with fit for valve control
- ▶ Particularly robust, stable and durable thanks to reinforced walls

Model	HSWH 3	HSWH 5
Art. no.	6201000	6201001
Technical specifications		
Load-carrying capacity	3 t	5 t
Min. height (A)	194 mm	216 mm
Adjustment height (B)	60 mm	70 mm
Stroke (C)	118 mm	127 mm
Lift height (D)	372 mm	413 mm
Footprint (E x F)	92 x 100 mm	96 x 112 mm
Dimensions (L x W x H)	92 x 100 x 194 mm	96 x 112 x 216 mm
Weight	3.6 kg	4.5 kg

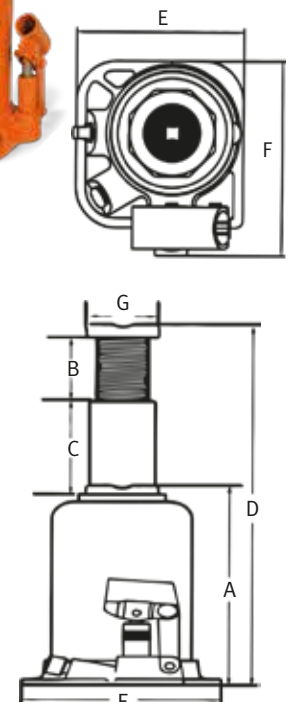

HSWH-Pro series – Hydraulic bottle jacks for professional deployment

- ▶ Safety valve protects the cylinder against overload
- ▶ Inner safety valve prevents inadvertent adjustment
- ▶ Hard chrome-plated piston and adjusting screw with smooth surface for long service life
- ▶ Long galvanized lever for easy pumping
- ▶ Premium welds and extremely durable threaded joint for maximum leak-tightness
- ▶ Reinforced at points exposed to heavy loads
- ▶ Stop protection prevents over-extension and blocking of the jack
- ▶ Pump is doubly sealed to improve leak-tightness
- ▶ The extremely robust welded chassis is suitable for toughest permanent operation
- ▶ Rounded base ensures central load distribution

Model	HSWH-PRO 5	HSWH-PRO 10	HSWH-PRO 20	HSWH-PRO 30
Art. no.	6201015	6201016	6201017	6201018
Technical specifications				
Load-carrying capacity	5 t	10 t	20 t	30 t
Min. height (A)	212 mm	220 mm	241 mm	244 mm
Adjustment height (B)	110 mm	115 mm	115 mm	108 mm
Stroke (C)	146 mm	148 mm	165 mm	140 mm
Lift height (D)	468 mm	483 mm	521 mm	492 mm
Footprint (E x F)	110 mm x 112 mm	124 mm x 127.5 mm	165 mm x 161 mm	186 mm x 174 mm
Die Ø (G)	40 mm	48 mm	60 mm	65 mm
Dimensions (L x W x H)	110 x 112 x 212 mm	124 x 127.5 x 220 mm	165 x 161 x 241 mm	186 x 174 x 244 mm
Weight	4.9 kg	7.4 kg	13.1 kg	15.8 kg

Hydraulic bottle jacks

HSWH TOP series – Hydraulic bottle jack

- ▶ Extensible lifting column, tilt-roof baseplate
- ▶ Rotating pump toggle lever can be operated from any position
- ▶ Particularly durable thanks to reinforced walls
- ▶ Premium welds and threaded joint
- ▶ Extension screw provides extra height reach
- ▶ Stop protection prevents blocking of the jack
- ▶ Safety valves prevent overload of the cylinder and accidental adjustment

HSWH 5 TOP

HSWH 10 TOP

HSWH 15 TOP

HSWH 20 TOP

HSWH 30 TOP

2x extensible telescopic pump handle

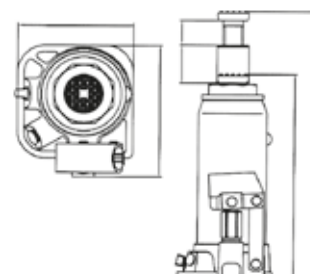

As of HSWH 20 TOP: Rotating carrying handle

The lifts can also be used horizontally

Rotating pump toggle lever can be operated from any position

Scope of delivery:

- > Pump lever
- > Carrying handle (as of HSWH 20 TOP)

Model	HSWH 5 TOP	HSWH 10 TOP	HSWH 15 TOP	HSWH 20 TOP	HSWH 30 TOP
Art. no.	6211005	6211010	6211015	6211020	6211030
Technical specifications					
Load-carrying capacity	5 t	10 t	15 t	20 t	30 t
Min. height (A)	212 mm	219 mm	228 mm	234 mm	242 mm
Lift height (D)	437 mm	444 mm	453 mm	459 mm	467 mm
Stroke (B)	150 mm	150 mm	150 mm	150 mm	150 mm
Adjustment height (C)	75 mm	75 mm	75 mm	75 mm	75 mm
Footprint (E x F)	125 x 75 mm	144 x 90 mm	164 x 110 mm	172 x 120 mm	196 x 144 mm
Weight	4.5 kg	6.4 kg	8.8 kg	10.6 kg	15.5 kg

PRW 450 – Car dollies

- ▶ Move vehicles with ease, including damaged, locked, or blocked vehicles
- ▶ For sideways movement or rotating on the spot
- ▶ With steeling rollers for optimum manoeuvring in cramped spaces, e.g., car dealerships or workshops

Model	PRW 450
Art. no.	6201599

Technical specifications	
Load-carrying capacity	900 kg/pair
Individual dimensions (L x W x H)	602 x 385 x 140 mm
Weight	9 kg/pc.
Scope of supply	2 roller dollies

PV 681 – Hydraulic manoeuvring aid for cars

- ▶ For manoeuvring cars in cramped conditions
- ▶ Two manoeuvring aids for rotating a car about its own axis; for manoeuvring aids for full freedom of movement
- ▶ Convenient lifting of the vehicle using a foot pedal
- ▶ For use on flat floors indoors
- ▶ With steering rollers for best manoeuvring ability even in cramped rooms
- ▶ Rugged steel design, wheel holders made of aluminium

Model	PV 681
Art. no.	6201602

Technical specifications	
Load-carrying capacity	680 kg
Wheel holding rail (L x Ø)	270 x 70 mm
Distance to rail centre	340 - 620 mm
Distance to inside of rail	270 - 550 mm
Ground clearance	150 mm
Ground clearance rail top/bottom	36 / 106 mm
Weight	18 kg
Scope of supply	1 manoeuvring aid

Application example

KR series – practical drive-on vehicle ramps for more safety when working and under the vehicle – easy to operate

KR 2000

- ▶ Stable design
- ▶ Robust welded steel design
- ▶ Ramp width up to 185 mm

KR 2001

- ▶ Stable design
- ▶ Robust welded steel design
- ▶ Ramp width up to 225 mm

KR 2500

- ▶ Space-saving, stackable
- ▶ Plastic vehicle ramp
- ▶ Featuring extra-wide ramp width (240 mm)

KR 2000/ KR 2001

KR 2500

Model	KR 2000	KR 2001	KR 2500
Art. no.	6202000	6202001	6202005

Technical specifications			
Load-carrying capacity	2 t/pair	2 t/pair	2.5 t/pair
Max. tyre width	185 mm	225 mm	240 mm
Dimensions	830 x 310 x 270 mm	910 x 360 x 270 mm	900 x 295 x 220 mm
Weight	5.2 kg/pc.	7.9 kg/pc.	4 kg/pc.
Scope of supply	2 pcs.	2 pcs.	2 pcs.

Hydraulic trolley jack/support stands

RWH Series – Floor jacks

RWH 2

- ▶ With cast iron load-bearing and steering rollers
- ▶ Short type
- ▶ Compact and stable
- ▶ Practical carrying handle

RWH 2.5

- ▶ With cast iron load-bearing and steering rollers
- ▶ With upper part for extending the pad
- ▶ With second attachment point for lever: single stroke on the vehicle's jacking point thanks to QUICK LIFT function
- ▶ Easy lifting after moving the lever

RWH 2.5

- ▶ With practical holder for upper part at side

- ▶ Extensible pad facilitates work on the vehicle

RWH 2

RWH 2.5

Model	RWH 2	RWH 2.5
Art. no.	6201100	6201101
Technical specifications		
Load-carrying capacity	2 t	2.5 t
Min. clearance	130 mm	150 mm
Final height max.	345 mm	530 mm
Length	480 mm	680 mm
Width	220 mm	290 mm
height	150 mm	185 mm
Weight	9.6 kg	18 kg

UB Series – Trestles

- ▶ Safeguard for working under the raised vehicle
- ▶ Robust welded design with V piston
- ▶ Wide feet: easy on the workshop floor, asphalt or other substrates
- ▶ UB 3000 adjustable in ten stages
- ▶ UB 6000 adjustable in 13 stages

Scope of delivery:
› 2 support stands

Model	UB 3000	UB 6000
Art. no.	6201300	6201301
Technical specifications		
Load-carrying capacity	3 t/trestle	6 t/trestle
Min. height	288 mm	395 mm
Max. height	425 mm	605 mm
Latching stages	10	13
Footprint	225 x 205 mm	310 x 265 mm
Weight	7 kg/pair	13.2 kg/pair

UBK Series - Folding trestles

- ▶ Safeguard for working under the raised vehicle
- ▶ Wide feet: easy on the substrate

Scope of delivery:
› 2 support stands

Model	UBK 3000
Art. no.	6201305
Technical specifications	
Load-carrying capacity	3 t/trestle
Min. height	285 mm
Max. height	400 mm
Latching stages	4
Footprint	240 x 240 mm
Weight	4 kg/pair

SRWH 2500 EF

► **Flat design:** Floor jack specially designed for suspension lowered and sports vehicles with a minimum ground clearance of just 85 mm

SRWH 3000 QL

QUICK LIFT function

► with a single push of the pedal at the vehicle's jacking point

SRWH Series – Special floor jacks

SRWH 2500 EF, SRWH 3001 EF, SRWH 3000 QL

- Two-part pump lever with rubber handle for safe and easy lifting of loads
- Valve control via rotating pump lever
- With cast iron load-bearing and steering rollers
- Extra-wide support pad surface

SRWH 2500 EF

SRWH 3001 EF

SRWH 3000 QL

► Turn to lower

With dual piston

► Less pumping actions needed to max. height

► Turn to lower

Model	Extra flat! SRWH 2500 EF	Extra flat! SRWH 3001 EF	SRWH 3000 QL
Art. no.	6201102	6201117	6201103
Technical specifications			
Load-carrying capacity	2.5 t	3 t	3 t
Max. lift height	370 mm	430 mm	355 mm
Min. clearance	85 mm	90 mm	145 mm
Underside clearance max.	174 mm	150 mm	180 mm
Final height max.	455 mm	520 mm	500 mm
Dimensions	640 x 342 x 174 mm	720 x 380 x 150 mm	685 x 346 x 180 mm
Inside width	266 mm	290 mm	270 mm
Outside width	342 mm	380 mm	346 mm
Max. length	1 600 mm	1 955 mm	1 640 mm
Weight	34.8 kg	43 kg	38 kg

Floor jacks

RWHA Series – Aluminium floor jacks Light models for flat, sports vehicles

- ▶ Very flat, designed specifically with vehicles with lowered suspension
- ▶ Valve control via interior rods and rotary button on pump lever
- ▶ Slow, safe lowering under load
- ▶ Convenient and easy lifting thanks to hydraulics and long lever
- ▶ Two practical aluminium handles at sides

RWHA 1500

- ▶ Lightweight, robust aluminium design
- ▶ With stable load roller
- ▶ Rubber mat protects pad and vehicle

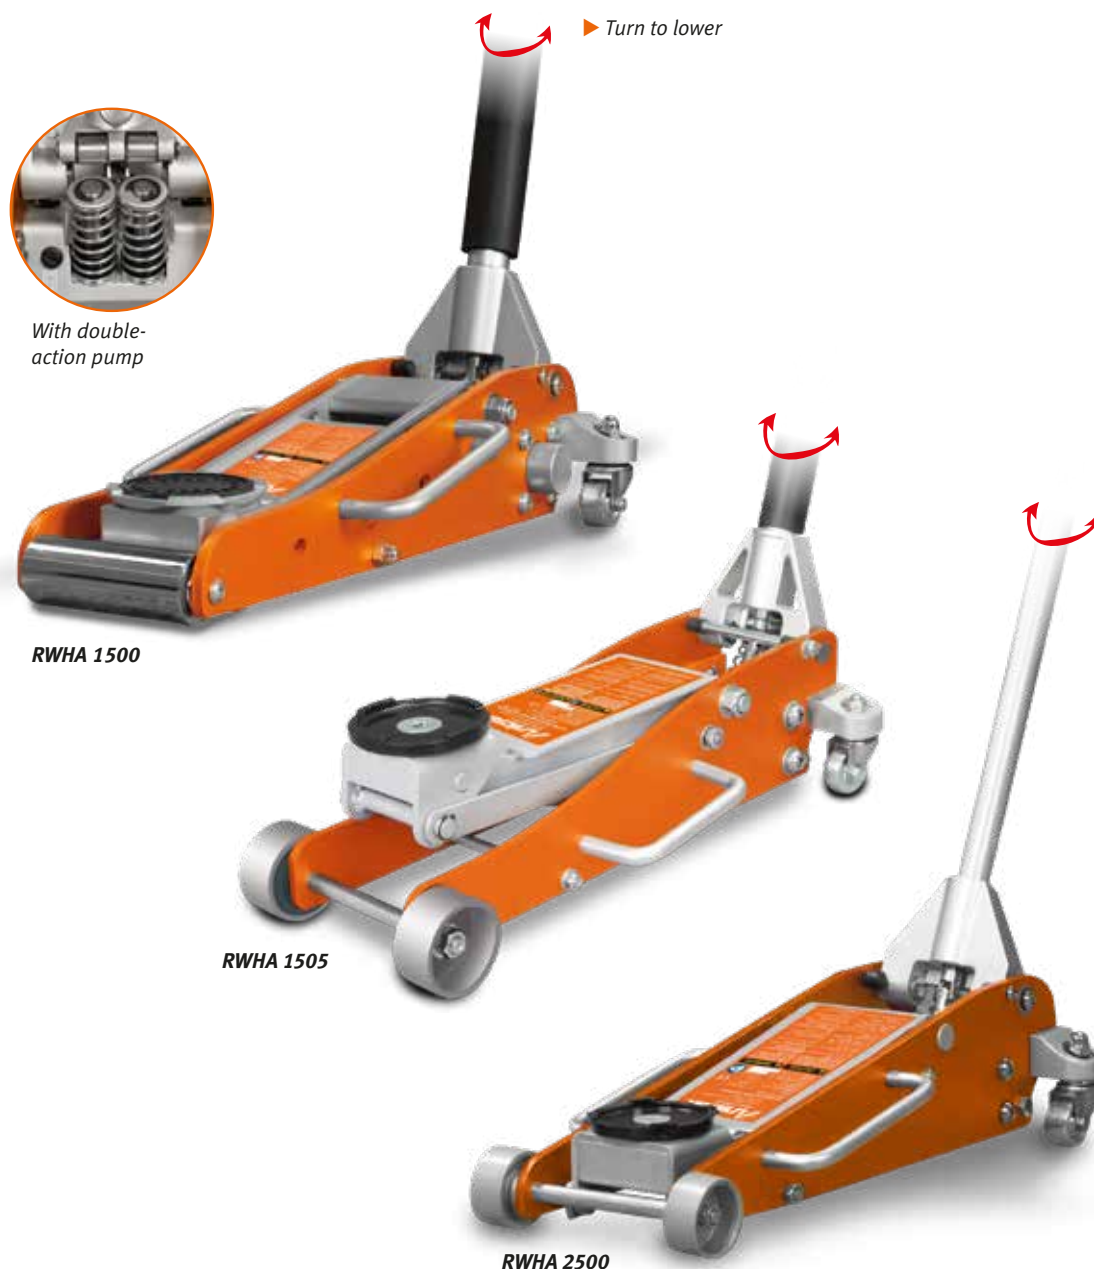

RWHA 2500

- ▶ Robust aluminium and steel construction
- ▶ QUICK LIFT function: reaches max. height with just 7 pump strokes

With double-action pump

▶ Turn to lower

RWHA 1500

▶ For lowered chassis

▶ Rubber mat on pad and pump lever sleeve protect the vehicle chassis

Long lever with premium handle for lowering

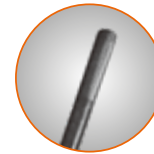

Model	RWHA 1500	RWHA 1505	RWHA 2500
Art. no.	6201106	6201110	6201109
Technical specifications			
Load-carrying capacity	1.5 t	1.5 t	2.5 t
Min. clearance	85 mm	85 mm	100 mm
Final height max.	445 mm	375 mm	465 mm
Length	660 mm	576 mm	650 mm
Width	294 mm	250 mm	292 mm
height	170 mm	154 mm	170 mm
Weight	19.5 kg	18.5 kg	26.4 kg

SRWH 3001 SIL – Special floor jacks

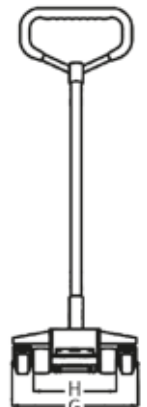

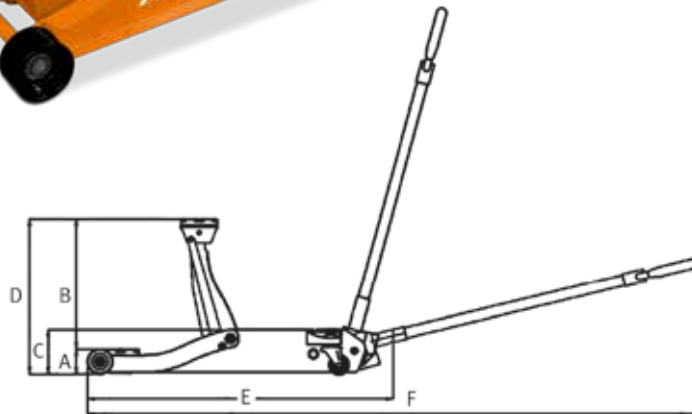

- ▶ Safe and easy lifting of the load thanks to two-part pump lever with rubber handle
- ▶ Extra-wide support pad surface
- ▶ Valve control via rotating pump lever
- ▶ Fewer pumping actions needed to max. final height thanks to double piston

▶ Turn to lower

▶ Equipped with low-noise polyurethane rollers

Model	SRWH 3001 SIL
Art. no.	6201121

Technical specifications	
Load-carrying capacity	3.0 t
Max. lifting height (B)	340 mm
Min. clearance (A)	120 mm
Underside clearance max. (C)	158 mm
Final height max. (D)	460 mm
Dimensions (E x G x B)	628 x 343 x 158 mm
Outside width (G)	343 mm
Max. length (F)	1 756 mm
Weight	31.5 kg

SRWH LFH series – Special floor jack with double piston, flat design and high final height

- ▶ With extra-low pad profile for suspension-lowered vehicles
- ▶ Particularly well-suited for long frame parts due to extra-long design
- ▶ Less pumping actions needed to max. height thanks to double piston
- ▶ Easy lifting up to jacking point via foot pedal or hand lever
- ▶ Slow, safe lowering under load
- ▶ Large support pad with rubber mat protects the jacking point and vehicle

New

SRWH 3000 LFH

Model	SRWH 2500 LFH	SRWH 3000 LFH
Art. no.	6201126	6201127

Technical specifications		
Load-carrying capacity	2.5 t	3.0 t
Max. lift height	425 mm	470 mm
Min. clearance	75 mm	110 mm
Final height max.	500 mm	580 mm
Dimensions	685 x 344 x 150 mm	805 x 355 x 172 mm
Weight	32.4 kg	48.5 kg

SRWH 2000 LF DS – Special floor jack with double piston

- ▶ With stable roller-shaped PU roller tyres for extra smooth action
- ▶ Very flat, suitable for vehicles with lowered suspension
- ▶ Valve control via interior rods and rotary button on pump lever
- ▶ Slow, safe lowering under load
- ▶ Convenient and easy lifting thanks to hydraulics and long lever
- ▶ Rubber mat protects pad and vehicle
- ▶ Wide support pad surface

New

Model	SRWH 2000 LF DS
Art. no.	6201125

Technical specifications	
Load-carrying capacity	2.0 t
Max. lift height	430 mm
Min. clearance	70 mm
Final height max.	500 mm
Dimensions (L x W x H)	822 x 360 x 214 mm
Weight	43 kg

Special floor jacks

SRWH-PRO series – Special floor jacks for professional deployment

- ▶ Robust frame design
- ▶ Compact and space-saving
- ▶ Large rubber support pad for best possible safety when lifting loads
- ▶ Rapid centring of the load thanks to the lifting pad shape
- ▶ Load-bearing and steering rollers made of plastic for low-noise positioning
- ▶ Safety valve triggers lifting bar idle position in case of overload - lifting height is kept
- ▶ Two-part pump lever with rubber handle for safe and easy lifting of loads
- ▶ Valve control via rotating pump lever

Model	SRWH-PRO 2000
Art. no.	6201115

Technical specifications	
Load-carrying capacity	2 t
Ground clearance	130 mm
Lift height	405 mm
Dimensions (L x W x H)	760 x 480 x 200 mm
Weight	33.5 kg

SRWH 22 TOP – Portable hydraulic trolley jack for professional applications

- ▶ Extra-low pad profile for suspension-lowered and low-riding sports vehicles
- ▶ Easy lifting up to jacking point via foot pedal or hand lever
- ▶ Safety valve triggers shifts lifting bar to idle position in case of overload
- ▶ Protects the jacking point and vehicle thanks to large support plates with rubber mats
- ▶ Mechanical protection system prevents accidental lowering
- ▶ Slow and safe lowering under load
- ▶ Valve control via rotating pump lever
- ▶ Fast lifting with dual-action pump
- ▶ Rollers made of plastic for low-noise positioning
- ▶ Practical integrated tool tray

Can be transported upright. **Patented!**

Model	SRWH 22 TOP
Art. no.	6213022

Technical specifications	
Load-carrying capacity	2 t
Min. clearance	92 mm
Final height max.	410 mm
Dimensions (L x W x H)	616 x 200 x 136 mm
Weight	19 kg

Height-adjustable telescopic handle includes all functions: lifting, lowering and transport. **Patented!**

SRWH TOP series – Special floor jack for professional applications

- ▶ Rugged, compact and space-saving design
- ▶ With low pad profile for suspension-lowered vehicles
- ▶ Large support pad with rubber mat protects the jacking point and vehicle
- ▶ Rapid centring of the load thanks to the lifting pad shape
- ▶ Easy lifting up to jacking point via foot pedal or hand lever
- ▶ Load-bearing and steering rollers made of plastic for low-noise positioning
- ▶ Safety valve triggers lifting bar idle position in case of overload - lifting height is kept
- ▶ Slow and safe lowering under load
- ▶ Practical integrated tool tray
- ▶ Valve control via rotating pump lever

SRHW 30 TOP

SRHW 20 TOP

Model	SRHW 20 TOP	SRHW 30 TOP
Art. no.	6213020	6213030
Technical specifications		
Load-carrying capacity	2 t	3 t
Min. clearance	90 mm	90 mm
Final height max.	470 mm	470 mm
Dimensions (L x W x H)	905 x 270 x 135 mm	905 x 270 x 135 mm
Weight	32.5 kg	36 kg

Mechanical protection system prevents accidental lowering

① Patented foot pedal triggers the mechanical protection system meaning that the lifts do not need support stands (**PATENTED!**)

② Easy lifting up to jacking point via foot pedal

Special floor jacks

Series WWH – Special floor jacks Pneumatic-hydraulic workshop jacks

- ▶ Controlled, safe lifting and lowering
- ▶ For operation with compressed air from an external source
- ▶ Hard chrome-plated piston with extra-smooth surface
- ▶ Compact design
- ▶ With stable rollers made of PU coated cast iron
- ▶ T-handle for ease of manoeuvring
- ▶ With practical carrying handle on housing
- ▶ The two cast iron top sections can be used individually or connected one on top of the other to extend the lift reach.

▶ Intuitive safety rotary button control with compressor coupling

! For matching compressors see the main Aircraft catalogue, or visit www.aircraft-kompressoren.com

Assembly aid

Workshop presses

WPP Series – Hydraulic workshop presses

- ▶ Ideal for versatile use in trades and for repairs in schools, training workshops, garages, workshops, farms, forestry and landscape gardening

WPP 10 TE

- ▶ Low-height table press
- ▶ Three-stage height-adjustable press bench with locking bolts
- ▶ Press force display via manometer, piston feed via hydraulic hand pump

WPP 15 TE

- ▶ Low-height table press
- ▶ Three-stage height-adjustable press bench with locking bolts
- ▶ Pressing pressure displayed on pressure gauge
- ▶ Piston advance via manual hydraulic pump
- ▶ Cylinder laterally translatable

- ▶ The series' rational design guarantees best-possible value for money
- ▶ More space to work thanks to press cylinder with factory-standard integrated return spring

WPP 15 E

- ▶ Robust welded frame with perforations: press bench 10x height-adjustable with locking bolts
- ▶ Piston stroke alternatively by hydraulic manual pump or foot pedal
- ▶ Cylinder laterally translatable

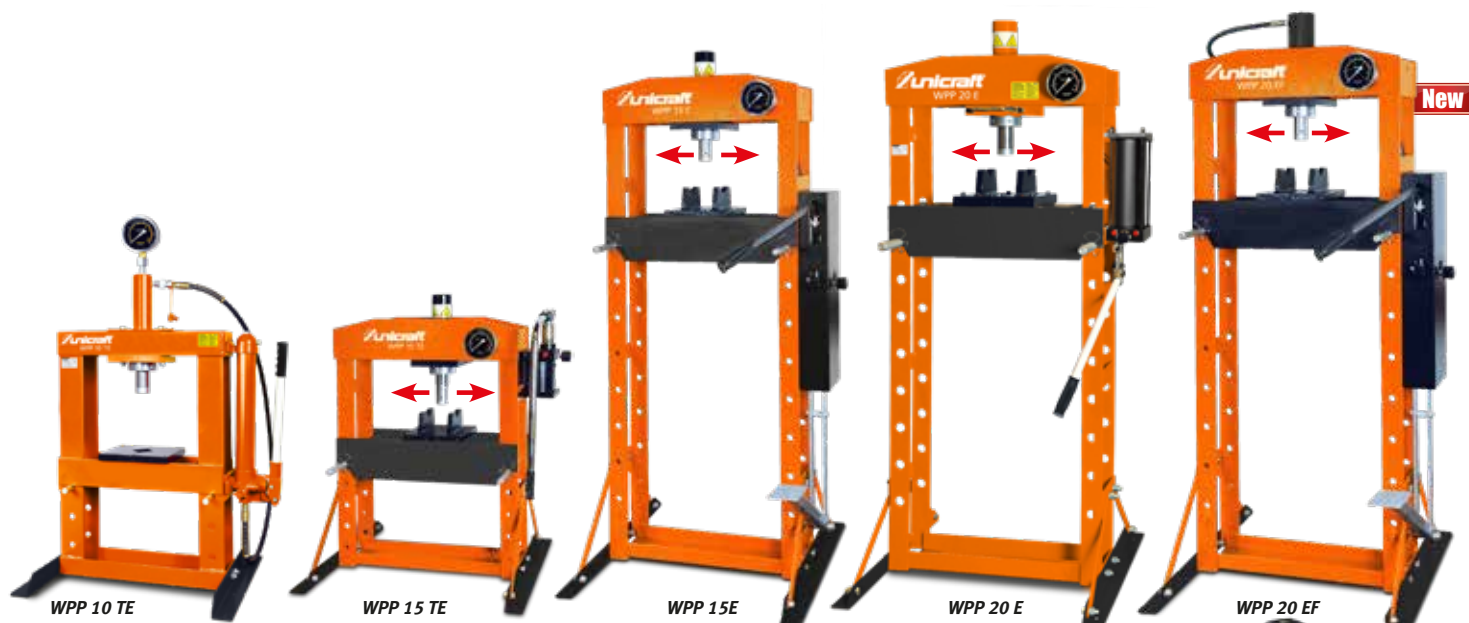

- ▶ Fully H&S compliant: piston can be stopped in any position

WPP 20 E

- ▶ Robust welded frame with perforations: press bench 10x height-adjustable with locking bolts
- ▶ Piston advance via manual hydraulic pump
- ▶ Pressing pressure displayed on pressure gauge
- ▶ Cylinder laterally translatable

WPP 20 EF New

- ▶ Piston stroke alternatively by hydraulic manual pump or foot pedal

Art. no.	6300031	6300050	6300051	6300075

Technical specifications				
Press force	30 t	50 t	50 t	75 t
Piston diameter	70 mm	75 mm	75 mm	93 mm
Foot width x depth (AxB)	795 x 700 mm	1 030 x 800 mm	1 030 x 800 mm	1 140 x 800 mm
Height (C)	1 830 mm	1 877 mm	1 877 mm	1 925 mm
Inside width (D)	535 mm	730 mm	730 mm	800 mm
Work area (E-F)	151 - 1 031 mm	69 - 1 048 mm	68 - 1 048 mm	170 - 884 mm
Piston stroke	150 mm	200 mm	200 mm	250 mm
Piston travel (G)	200 mm	245 mm	245 mm	260 mm
Operating pressure compressed air	–	7.5 - 8.5 bar	–	7.5 - 8.5 bar
Weight	167 kg	302.5 kg	300 kg	451 kg

Workshop presses

WPP TOP series – Hydraulic workshop presses. New series with heavy-duty design!

- ▶ Ideal for versatile use in trades and for repairs in schools, training workshops, garages, workshops, farms, forestry and landscape gardening
- ▶ The series' rational design guarantees best-possible value for money
- ▶ More space to work thanks to press cylinder with factory-standard integrated return spring
- ▶ Patented guide system guarantees optimal positioning of the prism blocks
- ▶ Height-adjustable press bench with locking bolts
- ▶ Pressing pressure displayed on pressure gauge
- ▶ With catchment container
- ▶ Laterally translatable cylinder with scale display (**except WPP 15 TH TOP**)

WPP 15 TH TOP

- ▶ Low-height bench-top model
- ▶ With manual pump

WPP 30 BPH TOP

- ▶ Piston advance via hydraulic pump

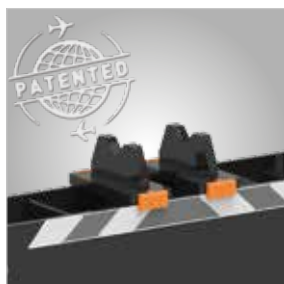

WPP 30 BPHF TOP

- ▶ Piston stroke by hydraulic manual pump or pneumatic foot pedal

Letter:	Meaning:
T	Bench-top model
H	Manual pump
B	Moving cylinder
P	Pneumatics
F	Foot pedal

Practical storage compartment in base

Patented guide system guarantees optimal positioning of the prism blocks

Automotive aids

MMB 505 – Engine mounting gantry

- ▶ For holding and lifting engines via two adjustable load spindles
- ▶ Suitable for transverse and straight engines
- ▶ Two safety chains included in scope of delivery
- ▶ Swivelling support feet, latching with two rotary knobs

Model	MMB 505
Art. no.	6201705
Technical specifications	
Load-carrying capacity	500 kg
Spindle stroke	250 mm
Distance between feet	730 - 1 480 mm
Dimensions (L x W x H)	1 540 x 150 x 110 mm
Weight	17.5 kg

MP 680 – Engine positioner

- ▶ For engine fitting/removal in combination with workshop cranes, or similar
- ▶ Quickly find centre of gravity thanks to practical crank and worm gear
- ▶ Four stable chains as practical attachment options
- ▶ Handy thanks to light weight

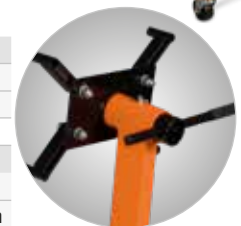

Model	MP 680
Art. no.	6201701
Technical specifications	
Load-carrying capacity	680 kg
Dimensions (L x W x H)	445 x 65 x 190 mm
Weight	5.5 kg

MMB 450 – Engine assembly trestle

- ▶ With steering rollers for best manoeuvring ability
- ▶ Adjustable in five stages up to 450 kg load-bearing capacity

Model	MMB 450
Art. no.	6201400
Technical specifications	
Max. load-bearing capacity	450 kg
Dimensions (L x W x H)	870 x 195 x 190 mm
Weight	21 kg

With lever on rear

HKRS 1001 – Hydraulic body straightening set

- ▶ Hydraulic set in rugged plastic case with rollers
- ▶ Compact package: portable, compact and practical

Scope of supply:

- › Manual pump with hose
- › Foot with rubber caps
- › Adapter bolt with thread
- › Extension tube set
- › Corrugated support plate
- › Pressure cylinder
- › Spreader
- › Rubber head
- › 90° V support
- › Transport case with rollers (910 x 405 x 180 mm)

Model	HKRS 1001
Art. no.	6201205
Technical specifications	
Press force	10 t
Cylinder stroke	130 mm
Weight	31.5 kg

WK 2000 – folding engine cranes with spread chassis

- ▶ Crane boom 4x adjustable, load-bearing capacity depending on outreach
- ▶ With steering rollers for maximum flexibility even under load
- ▶ Space-saving storage thanks to folding tubular feet
- ▶ Easy to assemble and knock down

Equipment details WK 2000

- ▶ Chain with safety hook on boom

Fig. shows WK 2000 with engine positioner MP 680 (MP 680 not included in scope of supply)

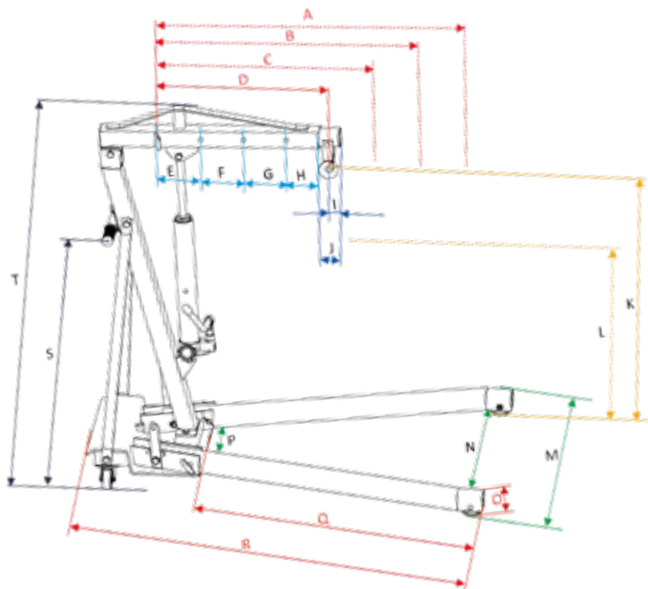

All three models fold

Workshop cranes

WK TOP – Engine crane; WKP TOP – Workshop crane for pallets

- ▶ Fold away easily for space-saving storage
- ▶ Hydraulic pump with user-friendly, rotating pump lever

- ▶ Precise lowering of the load thanks to dead-man control
- ▶ Maximum manoeuvrability also under load, thanks to steering rollers and foot pedal
- ▶ Low-noise rollers made of polyamide, gentle on floors

- ▶ Practical plastic guards prevent damage to the chassis and goods
- ▶ User-friendly and fast adjustment of the crane boom thanks to patented mechanism

The new position of the steering rollers also for excellent manoeuvrability.

Patented!

Pushbutton for fast position change of extensible boom with scale. **Patented!**

Gearbox hoists

GH Series – Hydraulic gearbox lift, infinitely height-adjustable

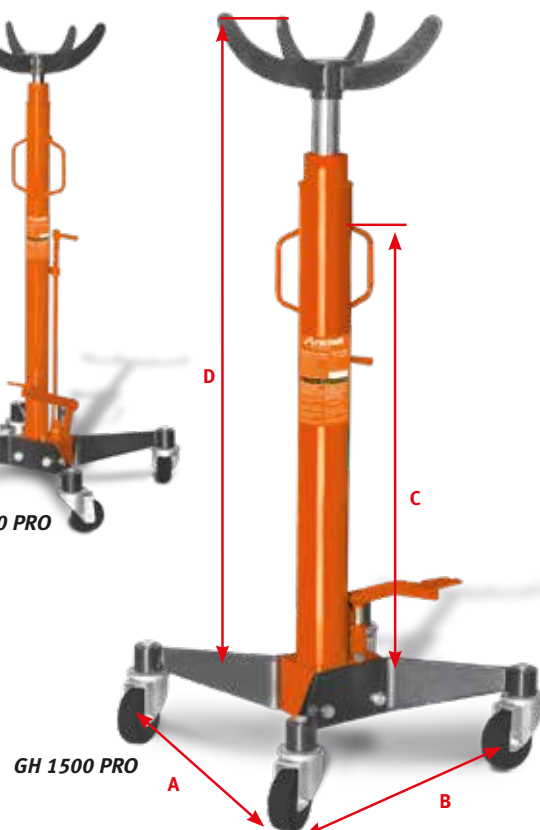

- ▶ Ideal for fitting and removing gearboxes, axles and exhaust systems, and for all other service and maintenance work
- ▶ Lifting by means of a hydraulic, continuously height-adjustable foot pump that allows for free work or holding with the hands at the same time
- ▶ The load is lowered by means of a hand-held controller
- ▶ With 4 steering rollers for easy manoeuvring
- ▶ PRO types for professional use
- ▶ Gearbox lift GH 1500 PRO suitable for working on commercial vehicles

GH 505

GH TOP – Transmission lift

- ▶ Ideal for fitting and removing gearboxes, axles and exhaust systems, and for all other service and maintenance work
- ▶ Continuous lifting by means of a hydraulic foot pump letting the user work or hold parts in their hands at the same time
- ▶ The load is lowered by means of a foot controller
- ▶ Rotating, height-adjustable manoeuvring handle with integrated screw tray
- ▶ Optimum protection of vehicle parts thanks to patented foam block
- ▶ Four steering rollers for easy manoeuvring
- ▶ All functions can be operated by foot

GH TOP attachment	6212990
Adjustable attachment with two chains for fixing the workpiece	

MMS – Motorcycle assembly stand front and rear

- ▶ Stable design for motorcycle repairs
- ▶ Stand with universal mount
- ▶ Easy lifting of the front and rear wheels

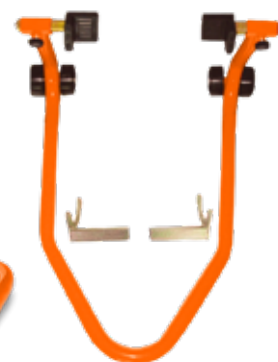

Model	MMS-V 100	MMS-H 200
Art. no.	6201510	6201511

Technical specifications		
Load-carrying capacity	100 kg	200 kg
Min. height	200 mm	255 mm
Max. height	270 mm	335 mm
Dimensions (L x W x H)	640 x 460 x 320 mm	675 x 550 x 345 mm
Weight	2.85 kg	4.85 kg

New

MMS-V 100
for the front wheel

MMS-H 200
for the rear wheel

MH 680 – Ultra-compact motorcycle lift with retaining straps

- ▶ For motorcycle and quad repairs
- ▶ Excellent stability and load-bearing capacity up to 680 kg despite compact dimensions
- ▶ Perfectly suited for smaller workshops
- ▶ Folds away, thus requiring little storage space
- ▶ The retaining straps included guaranteed safe work
- ▶ Steering rollers with parking brakes
- ▶ Easy-to-operate foot pedal

Model	MH 680
Art. no.	6201500

Technical specifications	
Load-carrying capacity	680 kg
Min. height	140 mm
Max. height	410 mm
Dimensions (L x W x H)	864 x 396 x 315 mm
Weight	35 kg

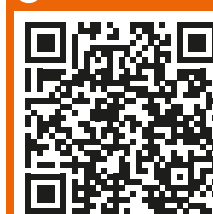

MHB series – Ultra-compact motorcycle lifting platforms

- ▶ Stable design for motorcycle repairs
- ▶ Compact design, thus perfectly suited for smaller workshops
- ▶ With wide base and ramp for easier manoeuvring of the vehicle
- ▶ Ideal for repairs on light motorcycles, scooters and motorcycles
 - up to maximum of 450 kg (**MHB 455**)
 - up to maximum of 680 kg (**MHB 680**), thus also suitable for quad bikes

For matching compressors see the main Aircraft catalogue, or visit www.aircraft-kompressoren.com

MHB 680

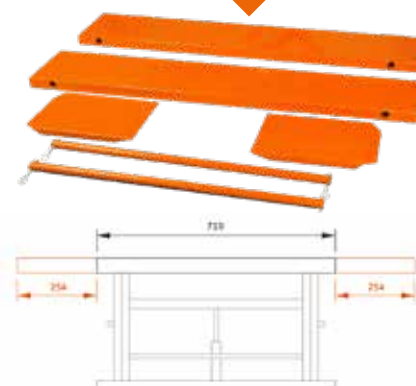

MHB 455

Scope of delivery MHB 680:
› lateral extension

Model	MHB 455	MHB 680
Art. no.	6201505	6201506

Technical specifications		
Load-carrying capacity	450 kg	680 kg
Min. height	175 mm	185 mm
Max. height	750 mm	825 mm
Adjustment range, tyre clamp	35 - 180 mm	35 - 185 mm
Platform size	2 200 x 680 mm	1 995 x 710 mm
Ramp size	650 x 680 mm	550 x 710 mm
Air consumption approx.	-	100 l/min
Pneumatic operating pressure	-	7 - 8.5 bar
Size of lateral extension	-	1 995 x 254 mm
Weight	127 kg	239 kg

MHB 680 with lateral extension

Creepers/gantry crane

MRB 40 KS and KRL 1 – Creepers

MRB 40 KS

- Wipe-clean plastic workshop creeper
- ▶ Ergonomic with padded head support, handle and six oil-resistant steering rollers
- ▶ Practical tray surfaces at sides

MRB 40 KS

KRL 1

- Workshop creeper foldable to assembly stool or for space-saving storage
- ▶ Robust steel design with padded lying/sitting surface and seven steering rollers

KRL 1

Folds to create an assembly stool

Model	MRB 40 KS	KRL 1
Art. no.	6201801	6201802
Technical specifications		
Max. load-bearing capacity	120 kg	120 kg
Dimensions (L x W x H)	1 010 x 475 x 130 mm	1 020 x 400 x 140 mm (bed) 485 x 400 x 440 mm (stool)
Weight	4.8 kg	6.7 kg

PK 1 – Mobile gantry crane with max. 1t load-carrying capacity

- ▶ Suitable for loading/unloading and for assembly, repair or warehousing work
- ▶ For use in workshops and factory operations on flat and smooth floors
- ▶ Easy movement and setup thanks to four steering rollers with parking brakes
- ▶ Safe and easy height adjustment in unloaded state via levers and two safety bolts per support carrier
- ▶ Stable and robust, torsion-free design thanks to addition transverse braces

Safe and easy height adjustment in unloaded state via levers and two safety bolts per support carrier

Stable design of the carrier supports

Steering rollers with parking brake

Model	PK 1
Art. no.	6172100
Technical specifications	
Load-carrying capacity	1.0 t
Min./max. height	2 500 mm / 3 600 mm
Clearance width	2 300 mm
Double-T bars (W x H)	76 x 120 mm
Weight	136 kg

ILT 1 – Infrared paint dryer

- ▶ Robust aluminium and stainless steel construction
- ▶ High quality V Power quartz halogen short wave infrared fluorescent tubes
- ▶ Dries the coat of paint efficiently from the inside and outside, thus saving time and avoiding blistering
- ▶ Lamp housing pivots and rotates through 360°
- ▶ Ball-bearing mounted rollers with parking brake

Model	ILT 1
Art. no.	6205001

Technical specifications	
Drying area	800 x 450 mm
Timer	0 – 60 min
Rating	1 kW
Power connector	230 V / 50 Hz
Weight	15 kg

Accessories	Article no.
Replacement tubes	6205006

ILT 3W – Infrared paint dryer

- ▶ Stable stainless steel design with hydraulic arm
- ▶ High quality V Power 21" (50 cm) quartz halogen short wave infrared fluorescent tubes
- ▶ Dries the coat of paint efficiently from the inside and outside, thus saving time and avoiding blistering
- ▶ Fully-automated digital power setting via LED display with timer
- ▶ Electronic temperature setting from 35 °C - 100 °C
- ▶ Each of the three radiators can be switched on individually
- ▶ Lamp housing pivots and rotates through 300°
- ▶ Two configurable drying phases:
PULSE: Interval operation for flash off/pre-drying
ROUTINE: Continuous operation for curing
- ▶ Ball-bearing mounted rollers with parking brake

Model	ILT 3W
Art. no.	6205000

Technical specifications	
Drying area	1200 x 1000 mm
Temperature	35 – 100 °C
Timer	0 - 99 min
Rating	3 x 1.1 kW
Power connector	230 V / 50 Hz
Weight	45 kg

Accessories	Article no.
Replacement tubes	6205005

Induction heater units

IHG 1500 – induction heater unit

- ▶ Extremely versatile for bodywork and work on commercial vehicles thanks to an ample range of accessories (additional accessories available separately)
- ▶ Easy to transport thanks to its compact dimensions and a low weight of only 4.5 kg

Application

- ▶ Removing minor dents caused by hail without corroding the paintwork
- ▶ Removing small trim panels
- ▶ Detaching and removing sealing compound and filler
- ▶ Treating jammed and corroded parts, such as screws, lugs, seals, hinges, nuts, etc.

- ▶ Also suitable for heating and loosening parts that are hard to access (e.g. axle components, ball joints, sensors, etc.), using a custom, flexible heating coil

Loosening parts that are hard to access by using a special type of twisted wire

For heating and loosening jammed and corroded parts

Easily removing small trim panels

Removing rust

Only 4.5 kg

IHG 1500 - wide range of accessories included in scope of delivery (shown bottom left)

Model	IHG 1500
Art. no.	6400015

Technical specifications	
Power connector	230 V / 50/60 Hz
Power draw	1.7 kVA
Induction output	1.5 kW
Fuse	16 A
Degree of protection	IP 21
Output frequency	25 - 60 kHz
Dimensions (L x W x H)	200 x 75 x 140 mm
Weight including accessories	5 kg
Device weight	4.5 kg

Control concept

- ▶ Targeted and precisely metered heat application within seconds thanks to cutting-edge microprocessor technology
- ▶ Heats up parts to over 800 °C
- ▶ Fast and easy operation

- ▶ High efficiency
- ▶ Prevents overheating thanks to two fans
- ▶ High degree of operational safety with auto-monitoring feature and on-screen status messages

IHG 1500 delivery scope in black case:

IHG 1500 with coil holder, ① Front coil M8, ② Front coil M12, ③ Focus coil ④ Winding wire

Side coil (L = 220 mm) M8 (20)	6411120
Side coil (L = 220 mm) M10 (23)	6411123
Side coil (L = 220 mm) M12 (26)	6411126
Side coil (L = 220 mm) M16 (32)	6411132
Side coil (L = 220 mm) M20 (38)	6411138
Side coil (L = 220 mm) M22 (45)	6411145
③ Focus coil (Ø = 20 mm)	6411004
④ Winding wire (flexible heating coil) (L = 800 mm)	6411003
Flat helical coil (PAD coil)	6411002
User-defined heating coil (L=750mm, Ø=4mm)	6411001
Ceramic heating coil flexible L = 800 mm	6411005

Function and benefits of the induction principle for bodywork and work on commercial vehicles

Function:

The induction heater unit and its accessories exclusively apply non-contact, targeted heat in areas where it is actually necessary. Based on the principle that electromagnetic induction works with conductive materials only so that non-conductive surfaces (such as glass, rubber, plastic, painted surfaces, etc.) are not heated up to prevent damage

to these components. An open flame is no longer needed, and the fire risk this entails virtually eliminated.

Application and benefits:

- ▶ Fast and easy removal of parts on vehicles by applying heat, e.g. glass, trim panels, stickers, foil, etc.

- ▶ Targeted and precisely metered heat application within seconds thanks to cutting-edge microprocessor technology
- ▶ Complete protection of the surrounding areas and no damage to painted surfaces, glass, rubber, plastic, etc.

IHG 2400 – induction heater unit

- ▶ Extremely versatile for bodywork and work on commercial vehicles thanks to its outstanding performance and ample range of standard accessories (additional accessories available separately)
- ▶ Easy to transport thanks to its compact dimensions and a low weight of only 6.0 kg

Application

- ▶ Removing dents caused by hail without corroding the paintwork
- ▶ Removing larger sections of trim panels
- ▶ Loosening jammed and corroded parts, such as bolts, nuts, screws, bearings, gear wheels etc.

- ▶ Detaching and removing sealing compound and filler
- ▶ Convenient windscreen removal for painting cars and commercial vehicles - enables to reuse windscreens with integrated seals

Prepare to be fascinated!

For repairing hail damage without damaging the paintwork

Loosening jammed and corroded parts

Only 6.0 kg

Model	IHG 2400
Art. no.	6400100

Technical specifications	
Power connector	230 V / 50/60 Hz
Power draw	2.4 kVA
Induction output	2.3 kW
Fuse	T 10 A
Degree of protection	IP 21
Output frequency	35 - 100 kHz
Dimensions (L x W x H)	390 x 260 x 225 mm
Weight including accessories	12.5 kg
Device weight	6 kg

IHG 2400 – large selection of accessories included in the delivery scope (illustration on the bottom left)

Control concept

Thanks to our innovative overall concept, users benefit from the following features: intelligent control technology and matching

Accessories:

Fast and easy operation

- ▶ Automatically detects connected accessories
- ▶ Manual or automatic mode
- ▶ Automatically controls output and frequency
- ▶ Acoustic status messages

Accessories

Induction heater units

IHG 3500 – For heating and loosening of stuck and rusted parts

- ▶ Powerful and simple operation with up to ten parameters
- ▶ Attachments replaceable for many different applications
- ▶ Timer for high repetition accuracy
- ▶ Easy to transport thanks to compact design and low weight
- ▶ Integrated liquid-cooling
- ▶ Easy to fill thanks to level display

Application options

- ▶ Loosening smaller trim parts, jammed and corroded parts, such as bolts, nuts, screws, bearings, gear wheels, etc.
- ▶ Local heating of parts for soldering, pressing, bending or adhesion bonding
- ▶ Melting materials with a low melting point
- ▶ Inexpensive, safe and clean alternative to heating with a torch

- › Easy to transport
- › Easy loosening of nuts and bolts
- › Heating of parts for pressing, bending or adhesion bonding

IHG 3500

Heating a nut with the angled focusing coil

Heating a threaded bolt with the liquid-cooled coil

Heating a component with the straight focusing coil

Scope of delivery:

- › Handle for reel with 2 m cable
- › Focusing coil lateral (Art. no. 6412002)
- › Coolant circuit capacity 2.5 l

Model		IHG 3500
Art. no.		6400035

Technical specifications

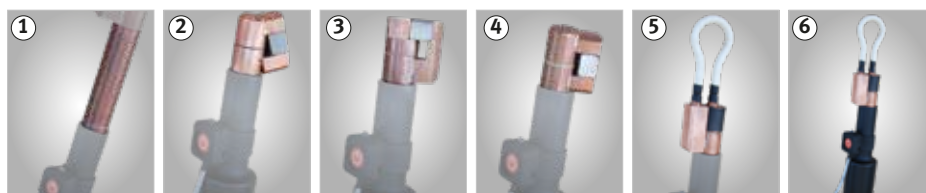

Induction output	kW	3.5
Output frequency	kHz	18 – 60
Degree of protection		IP 22
Coolant volume	l	2.5

Electrical connection

Power draw	kVA	3.5
Fuse	A	16
Supply voltage	V	230
Mains frequency	Hz	50 Hz

Dimensions and weights

Length x width x height		440 x 240 x 200 mm
Device weight		13.5 kg

Accessories	Article no.
① Handle extension	6412000
② Focusing coil angled	6412001
③ Focusing coil lateral	6412002
④ Focusing coil straight	6412003
Adapter for liquid-cooled coils	6412004
⑤ Liquid-cooled coil Ø20 mm	6412005
⑥ Liquid-cooled coil Ø25 mm	6412006
Coolant 5l canister	6412007

MH 1 – Assembly stool

- ▶ Wipe-clean assembly stool
- ▶ Robust steel design with steering rollers
- ▶ Practical tool tray
- ▶ Pneumatically height-adjustable seat surface

Model	MH 1
Art. no.	6201900
Technical specifications	
Load-bearing capacity	100 kg
Seat height	440 – 530 mm
Dimensions	380 x 380 x 440 mm
Weight	5.7 kg

DH 1 – rotary stool

- ▶ Standing support seat made of PUR integral foam
- ▶ Standing support seat mount
- ▶ Flat foot, polished (Ø 610 mm) with double rollers (Ø 65 mm)
- ▶ 5-year warranty

Made in Germany

Model	DH 1
Art. no.	6800030
Technical specifications	
Seat inclination	+2° to +15°
Seat height	460 – 610 mm
Seat width	390 mm
Seat depth	350 mm
Colour	Black

SH 1 – Standing support

- ▶ Standing support seat made of PUR integral foam
- ▶ Standing support seat mount
- ▶ Flat foot, polished (Ø 655 mm)
- ▶ With seat stop rollers (Ø 65 mm)
- ▶ Braked without load - blocked with load
- ▶ 5-year warranty

Made in Germany

Model	SH 1
Art. no.	6800025
Technical specifications	
Seat inclination	+2° to +15°
Seat height	690 – 900 mm
Seat width	390 mm
Seat depth	350 mm
Colour	Black

AS 1 – Working chair

- ▶ With adjustable backrest pressure
- ▶ XL backrest made of PUR integral foam
- ▶ With longer back strut
- ▶ Seat made of PUR integral foam
- ▶ Flat base, polished (Ø 655 mm) with double rollers (Ø 65 mm)
- ▶ Incl. armrest
- ▶ Safety armrest made of hard plastic
- ▶ 5-year warranty

Made in Germany

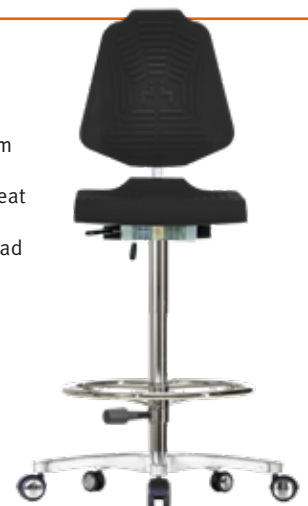

Model	AS 1
Art. no.	6800035
Technical specifications	
Backrest inclination	-8° to +10°
Seat inclination	-4° to +10°
Seat height	460 – 640 mm
Seat width	460 mm
Seat depth	435 mm
Colour	Black

HS 1 – High chair

- ▶ With adjustable backrest pressure
- ▶ XL backrest made of PUR integral foam
- ▶ Seat made of PUR integral foam
- ▶ Flat foot, polished (Ø 713 mm) with seat stop rollers (Ø 65mm)
- ▶ Braked without load - blocked with load
- ▶ 5-year warranty

Made in Germany

Model	HS 1
Art. no.	6800020
Technical specifications	
Seat inclination	-4° to +10°
Backrest inclination	-8° to +10°
Seat height	690 – 930 mm
Seat width	460 mm
Seat depth	435 mm
Colour	Black
Accessories	
Art. no.	
Armrest for HS 1	6800040

Lifting gear/weighing devices

USZ series – Universal wire rope hoists for lifting, pulling and lashing work up to a tensile load of 3.2 t

- ▶ Lightweight thanks to aluminium alloy housing
- ▶ Virtually maintenance free
- ▶ Horizontal and vertical use

Scope of delivery:

- › Hand lever
- › 20 m cable with tip and hook on hose reel

USZ 801

USZ 1601

USZ 3201

Model	USZ 801	USZ 1601	USZ 3201
Art. no.	6171608	6171616	6171632
Technical specifications			
Load-carrying capacity	0.8 t	1.6 t	3.2 t
Lever length	160 mm	200 mm	200 mm
Leverage at rated load	383 N	400 N	441 N
Cable diameter	8.3 mm	11 mm	16 mm
Cable length	20 m	20 m	20 m
Dimensions (L x W x H)	430 x 101 x 240 mm	556 x 120 x 270 mm	666 x 150 x 320 mm
Weight	14 kg	26.5 kg	46.5 kg

ESW 900 – Electric cable winch, compact and robust, with 12 V connection

- ▶ For use in vehicles, e.g., for pulling machines up a ramp into a small transporter
- ▶ Compact and robust
- ▶ Adjustable slip clutch protects the winch against overload
- ▶ Operated with crank handle, via wired and wireless remote control

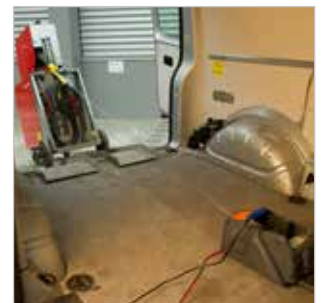

Model	ESW 900
Art. no.	6190900

Technical specifications	
Lifting force	900 kg
Stroke	9 m
Max. lifting speed	0.6 m/min
Cable diameter	5.6 mm
Performance	300 W
Supply voltage	12 V
Current type	=
Degree of protection	IP 54
Dimensions (L x W x H)	390 x 260 x 185 mm
Weight	13 kg

Scope of delivery:

- › Remote control with 2.5 m cable connection
- › Wireless remote control
- › Crank

Useful, e.g., for loading machines into a small transporter via a ramp

ESW series – Electrical cable winch with up to 30 m hoisting height

- ▶ For use in vehicles, e.g., for pulling machines up a ramp into a small transporter
- ▶ Compact and robust
- ▶ Adjustable slip clutch protects the winch against overload
- ▶ Operated with crank handle, via wired and wireless remote control

Available
from 12/2018

Available
from 12/2018

Model	USZ 801	USZ 3201
Art. no.	6171608	6171632

Technical specifications		
Load-carrying capacity	900 kg	1 360 kg
Cable length	9 m	9 m
Lifting speeds	1.82 m/min	1.22 m/min
Cable diameter	5.1 mm	5.6 mm
Length of cable, control unit	3 m	3 m
Voltage	12 V DC	12 V DC
Services	300 W	480 W
Degree of protection	IP54	IP 54
Dimensions (L x W x H)	260 x 260 x 202 mm	270 x 290 x 205 mm
Weight	11 kg	15 kg

Scope of delivery:

- › Remote control with 2.5 m cable connection
- › Wireless remote control
- › Crank

ESW 901

ESW 1360

New

Electrical cable winches/Wall-mounted swivel arms

ESW series – Electric cable hoist with max. 30 m lifting height

- ▶ Cable guide roll supports rewinding the cable
- ▶ New bearings extend the motor service life
- ▶ With quick coupling for immediate deployment without complex assembly
- ▶ The load lifting capacity is doubled by a deflection pulley

Model	ESW 500	ESW 800
Art. no.	6199500	6199800
Technical specifications		
Load lifting capacity with/without deflection pulley	250/500 kg	400/800 kg
Max. stroke with/without deflection pulley	30/15 m	30/15 m
Lifting speed without deflection pulley	8 m/min	8 m/min
Lifting speed with deflection pulley	4 m/min	4 m/min
Cable diameter	4 mm	5 mm
Length of cable, control unit	1.5 m	1.5 m
Power connection	230 V / 50 Hz	230 V / 50 Hz
Services	1 kW	1.3 kW
Dimensions (L x W x H)	310 x 330 x 440 mm	310 x 330 x 440 mm
Overall weight	30 kg	32 kg

ESW 500

WSA-2 series – Wall-mounted swivel arm

- ▶ Matches electric cable hoists from the MES Series and others
- ▶ For fastening on rods or pipes

Model	WSA 300-1100-2	WSA 600-750-2	WSA 1000-750-2
Art. no.	6198605	6198606	6198607
Technical specifications			
Max. load-bearing capacity	300 kg	600 kg	1 000 kg
Throat	1 100 mm	750 mm	750 mm
Overall weight	8.4 kg	6.1 kg	9.3 kg
Distance between top and bottom suspension points	450 mm	380 mm	380 mm
For models	MES 250-2/600-2	MES 250-2/600-2	MES 999-2

- ▶ Vertical bar not included in scope of supply! (required pipe diameter 48 mm)

MES series – Small electric cable winch

- ▶ Dead-man switch for safe work
- ▶ Lifting height with/without deflection pulley 12 m/6 m
- ▶ Deflection pulley with load hook
- ▶ Fastened by means of two stable double-clamps
- ▶ Operating switch with IP54 degree of protection
- ▶ Limit switch for immediate shut-off at top and bottom limit positions

Model	MES 250-2	MES 600-2	MES 999-2
Art. no.	6198225	6198260	6198299
Technical specifications			
Load lifting capacity with/without deflection pulley	125/250 kg	300/600 kg	500/999 kg
Connection	230 V ~50 Hz	230 V ~50 Hz	230 V ~50 Hz
Lift height with/without steering roller	12/6 m	12/6 m	12/6 m
Max. lifting speed with/without deflection pulley	8 / 4 m/min	8 / 4 m/min	8 / 4 m/min
Cable diameter	3.0 mm	4.5 mm	6 mm
Inside dimensions fastening clamps	46 x 46 mm	46 x 46 mm	59 x 59 mm
Weight	11 kg	17.5 kg	33 kg

MES 250-2

K series – Manual chain hoists for lifting work with up to 10 t load-carrying capacity

- ▶ Load-bearing capacity depending on model between 1 t and 10 t
- ▶ Robust steel sheet housing
- ▶ Closed safety design
- ▶ Easy to operate without applying force
- ▶ Single-, double-, or four-strand design
- ▶ Rotating load and attachment hook

Matching reel drives and roller drivers, see page 52!

Model	1000 grain	K 2000	K 3000	K 5000	10000 grain
Art. no.	6202101	6202102	6202103	6202105	6202110

Technical specifications					
Load-carrying capacity	1 t	2 t	3 t	5 t	10 t
Stroke	2 500 mm	2 500 mm	3 000 mm	3 000 mm	3 000 mm
Min. hook to hook distance	300 mm	380 mm	470 mm	600 mm	730 mm
Lifting force	330 N	330 N	390 N	420 N	450 N
Number of chain strands	1	2	2	2	4
Weight	9.4 kg	12.4 kg	21.7 kg	35 kg	65 kg

K 1000

K series – Manual chain hoists for lifting work with up to 10 t load-carrying capacity

- ▶ Increased efficiency and reduction of friction losses thanks to tempered gearwheels and pinion on roller bearings
- ▶ Drop forged, rotating load and attachment hook with lock
- ▶ Safe holding of load thanks to load pressure brake with asbestos-free brake disks

K 1001

Matching reel drives and roller drivers, see page 52!

Model	K 1001	K 2001	K 3001	K 5001	K 10001

K 1001

- ▶ Design as per DIN EN13157 standard
- ▶ Galvanised load chain as per DIN ISO 3077
- ▶ High-strength, painted steel housing

HZ series – lever hoists for lifting and pulling work with up to 3 t load-carrying capacity

- ▶ Fast attachment of the load by pulling the load chain through the chain freewheel in both directions
- ▶ Safe holding of load thanks to load pressure brake with asbestos-free brake disks
- ▶ Drop forged, rotating load and attachment hook with lock

Matching reel drives and roller drivers, see page 52!

Model	HZ 751	HZ 1501	HZ 3001
Art. no.	6171175	6171115	6171130

Technical specifications			
Load-carrying capacity	0.75 t	1.5 t	3 t
Stroke	1.5 m	1.5 m	1.5 m
Lever length	290 mm	420 mm	420 mm
Hand force at rated load	140 N	220 N	320 N
Number of chain strands	1	1	1
Length	135 mm	162 mm	211 mm
Width/depth	148 mm	176 mm	195 mm
height	320 mm	380 mm	480 mm
Weight	6.3 kg	11 kg	18.7 kg

- ▶ Design as per DIN EN13157 standard
- ▶ Galvanised load chain as per DIN ISO 3077
- ▶ High-strength, painted steel housing

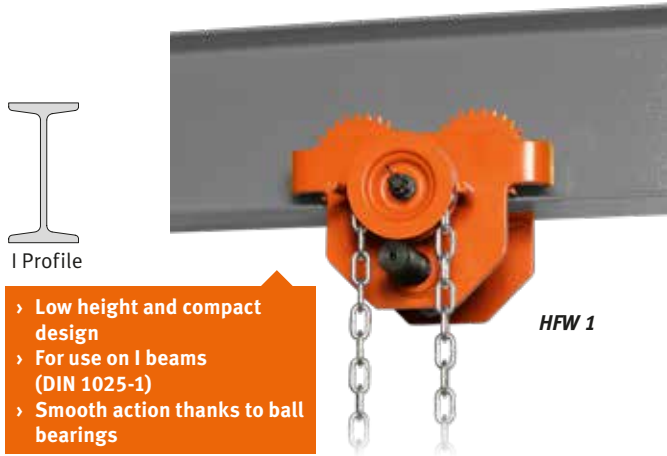

HZ 751

Chassis/clamping

HFW series – Reel drives with up to 5 t load-carrying capacity

- ▶ No lateral displacement on the beam thanks to centred suspension of block and tackle
- ▶ Adjustment to carrier flange width through eye beam with counter thread
- ▶ Tilt safety as standard

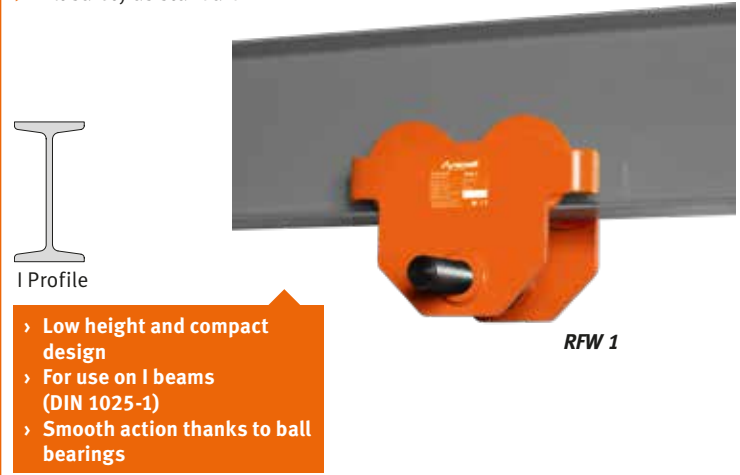

Model		HFW 0.5	HFW 1	HFW 2	HFW 3	HFW 5
Art. no.		6171800	6171801	6171802	6171803	6171805

Technical specifications

Load-carrying capacity	T	0.5	1	2	3	5
Chain length	m	3	3	3	3	3

Weight	kg	5	8.8	14	23	40

TK series – Beam clamps with up to 5 t load-carrying capacity

- ▶ Central spindle mechanism for easy fastening on the beam with secure and safe seat

- ▶ For quickly creating attachment points
- ▶ Suitable for holding hoisting gear, pulleys and loads
- ▶ Flexible handling thanks to large adjustment range

Model	TK 1	TK 2	TK 3	TK 5
Art. no.	6171901	6171902	6171903	6171905

Technical specifications

Load-carrying capacity	1 t	2 t	3 t	5 t
Carrier flange width	75 - 220 mm	75 - 220 mm	80 - 320 mm	80 - 320 mm
Dimensions (L x W x H)	175 x 64 x 230 mm	175 x 74 x 230 mm	225 x 103 x 325 mm	225 x 110 x 325 mm
Weight	3.8 kg	4.6 kg	9 kg	11 kg

– Lever clamps with swivel eye for lifting loads of up to 5 t

- ▶ For vertical lifting, 180° rotation and lateral attachment of sheet metal, steel plates, beams and steel construction elements
- ▶ Safety locking with the detent lever ensures safe clamping of the load even if the clamping position does not patch the direction of tension

- ▶ The minimum load is 10 % of the stated load-carrying capacity
- ▶ The surface hardness of the transported goods must not exceed HRC 30

- ▶ Also for lateral attachment thanks to swivel eyes

Model	HKS 1	HKS 2	HKS 3	HKS 5
Art. no.	6172001	6172002	6172003	6172005

Technical specifications

Load-carrying capacity	1 t	2 t	3 t	5 t
Grab range	0 – 20 mm	0 – 25 mm	0 – 30 mm	0 – 50 mm
Dimensions (L x W x H)	145 x 66 x 300 mm	175 x 75 x 385 mm	215 x 102 x 430 mm	232 x 112 x 500 mm
Weight	5 kg	8 kg	15 kg	23 kg

EKZT-1 SERIES – electric chain hoists with one lifting speed and up to 2 t max. load-carrying capacity

- ▶ Chain hoist suspended on load looks
- ▶ Overload protected by slip clutch
- ▶ Integrated operation limit switch
- ▶ Safe stowing of the chain through chain store supplied as standard
- ▶ Chain block controlled via control pendant
- ▶ Control pendant prepared for connecting to and controlling the matching UNICRAFT electric trolley (note recommendation)

- ▶ Power plant group FEM/ISO 2m/M5 equivalent to 1 600 hours service life under full load
- ▶ Load chain type G80 as per DIN EN-818-7
- ▶ Siemens electronics
- ▶ One lifting speed

Model	EKZT 5-1	EKZT 10-1	EKZT 20-1
Art. no.	6194005	6194010	6194020
Technical specifications			
Load-carrying capacity	0.5 t	1 t	2 t
Stroke	6 m	6 m	6 m
Max. lifting speed	7.7 m/min	5.1 m/min	2.6 m/min
Control pendant cable length	6 m	6 m	6 m
Number of chain strands	1	1	2
Current draw P1	1.2 kVA	1.4 kVA	1.4 kVA
Output P2	0.9 kVA	1.1 kVA	1.1 kVA
Power connection	400 V / 50 Hz	400 V / 50 Hz	400 V / 50 Hz
Dimensions (L x W x H)	636 x 276 x 410 mm	636 x 275 x 460 mm	636 x 276 x 650 mm
Weight	49 kg	54.3 kg	68.5 kg
Matching electric trolley	EFW 1-1	EFW 1-1	EFW 2-1

Accessories for electric chain hoists

EFW-1 series – electric trolleys with two travel speeds and up to 2 t max. load-carrying capacity

- ▶ Power connection and control of the trolley via the control pendant on the matching electric chain hoist
- ▶ Suitable for use with carrier types:
 - IPE 160 - IPE 400 (DIN 1025-5),
 - IPBI 100 - IPBI 180 (DIN 1025-3),
 - IPB 100 - IPB 180 (DIN 1025-2),
 - IPBv 100 - IPBv 160 (DIN 1025-4),
 - I 160 - I 475 (DIN 1025-1)

- EFW 1-1**
- ▶ Suitable for electric hoists **EKZT 5-1** (Art. no.: 6194005) and **EKZT 10-1** (Art. no.: 6194010)

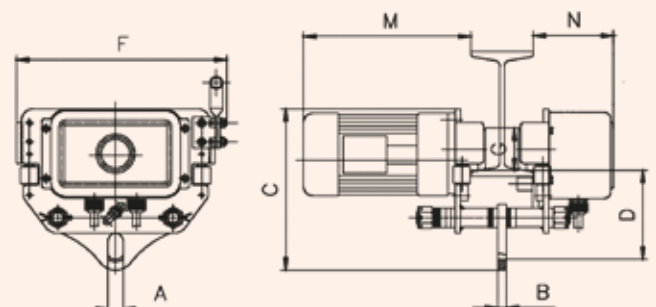

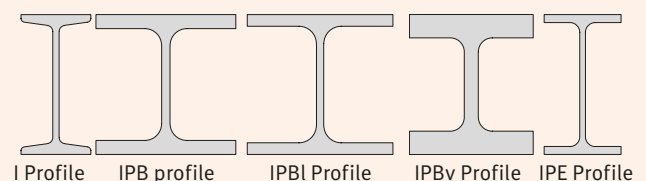

- EFW 2-1**
- ▶ Suitable for electric hoist **EKZT 20-1** (Art. no.: 6194020)

Model	EFW 1-1	EFW 2-1
Art. no.	6194310	6194320

Technical specifications				
Load-carrying capacity	T	1	2	
Carrier flange width	mm	74-180		
Wheel diameter	G mm	68	75	
Travel speed	m/min	13.5		
Rating	kW	0.4	0.6	
Power connection	V/Hz	400 / 50		
Degree of protection		IP 54		
Width of holding eye	A mm	24	30	
Thickness of mounting plate	B mm	14 mm		
Distance between holding eye and support surface	D mm	145	140	
Motor throat	m mm	310	312	
Control cabinet extension	N mm	135		
Length x width x height	mm	715 x 340 x 260	722 x 340 x 280	
Weight	kg	26	36	

EFW 1-1

Electric chain hoists/trolleys 2 speed

EKZT-2 series – electric chain hoists with two lifting speeds and up to 2 t max. load-carrying capacity

- ▶ Chain hoist suspended on load looks
- ▶ Overload protected by slip clutch
- ▶ Integrated operation limit switch
- ▶ Safe stowing of the chain through chain store supplied as standard
- ▶ Chain block controlled via control pendant
- ▶ Control pendant prepared for connecting to and controlling the matching UNICRAFT electric trolley (note recommendation)

- ▶ Power plant group FEM/ ISO 2m/M5 equivalent to 1 600 hours service life under full load
- ▶ Load chain type G80 as per DIN EN-818-7
- ▶ Siemens electronics
- ▶ Two lifting speeds

Model	EKZT 5-2	EKZT 10-2	EKZT 20-2
Art. no.	6194105	6194110	6194120
Technical specifications			
Load-carrying capacity	0.5 t	1 t	2 t
Stroke	6 m	6 m	6 m
Max. lifting speed	7.7 / 2.2 m/min	5.1 / 1.8 m/min	2.6 / 0.95 m/min
Length of cable, control unit	6 m	6 m	6 m
Number of chain strands	1	1	2
Current draw P1	1.2/0.4 kVA	1.4/0.46 kVA	1.4/0.46 kVA
Output P2	0.9/0.3 kVA	1.1/0.37 kVA	1.1/0.37 kVA
Power connection	400 V / 50 Hz	400 V / 50 Hz	400 V / 50 Hz
Dimensions (L x W x H)	641 x 276 x 410 mm	661 x 276 x 460 mm	661 x 276 x 650 mm
Weight	57 kg	66.3 kg	82 kg
Matching electric trolley	EFW 1-2	EFW 1-2	EFW 2-2

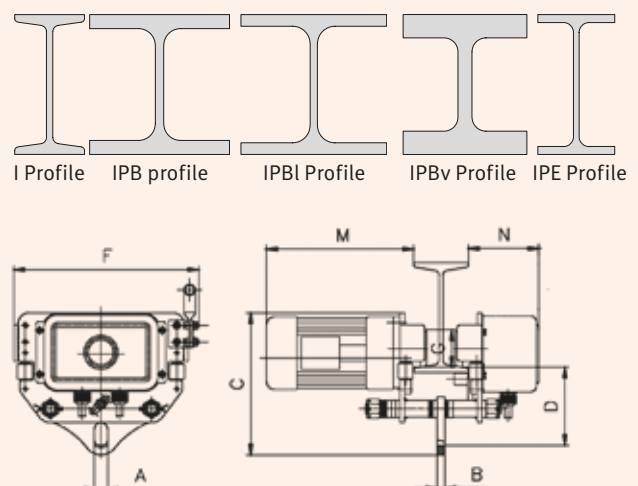

Accessories for electric chain hoists

EFW-2 series – electric trolleys with two travel speeds and up to 2 t max. load-carrying capacity

- ▶ Power connection and control of the trolley via the control pendant on the matching electric chain hoist
- ▶ Suitable for use with carrier types: IPE 160 - IPE 400 (DIN 1025-5), IPBI 100 - IPBI 180 (DIN 1025-3), IPB 100 - IPB 180 (DIN 1025-2), IPBv 100 - IPBv 160 (DIN 1025-4), I 160 - I 475 (DIN 1025-1)
- ▶ **EFW 1-2**
▶ Suitable for electric hoists EKZT 5-2 (Art. no.: 6194105) and EKZT 10-2 (Art. no.: 6194110)
- ▶ **EFW 2-2**
▶ Suitable for electric hoist EKZT 20-2 (Art. no.: 6194120)

Model			EFW 1-2	EFW 2-2
Art. no.			6194410	6194420
Technical specifications				
Load-bearing capacity		T	1	2
Carrier flange width		mm	74-180	
Wheel diameter	G	mm	68	75
Travel speed		m/min	6.7/20	
Rating		kW	0.4/0.167	0.6/0.23
Power connection		V/Hz	400 / 50	
Degree of protection			IP54	IP 54
Width of holding eye	A	mm	24	30
Thickness of mounting plate	B	mm	14	
Distance between holding eye and support surface	D	mm	145	140
Motor throat	m	mm	336	338
Control cabinet extension	N	mm	135	
Dimensions (L x W x H)		mm	741 x 340 x 260	748 x 340 x 280
Weight		kg	33	40

EKZT-1 SERIES – electric chain hoists with up to 500 kg load-carrying capacity

New

- ▶ Chain hoist suspended on load looks
- ▶ Overload protected by slip clutch
- ▶ Integrated operation limit switch
- ▶ Safe stowing of the chain through chain store supplied as standard
- ▶ Chain block controlled via control pendant

	Available from 12/2018	Available from 12/2018
Model	EKZT 301-1	EKZT 501-1
Art. no.	6194503	6194505
Technical specifications		
Load-carrying capacity	300 kg	500 kg
Stroke	3 m	3 m
Max. lifting speed	3 m/min.	2.8 m/min.
Length of cable, control unit	1.6 m	1.6 m
Number of chain strands	1	1
Supply voltage	230 V / 50 Hz	230 V / 50 Hz
Dimensions (L x W x H)	288 x 221 x 442 mm	382 x 176 x 600 mm
Weight	14.3 kg	18.5 kg

SW series – steel winch with safety crank for lifting, holding and lowering work with up to 10 t load-carrying capacity

- ▶ Anchor points on head and claw
- ▶ Low force application when lifting the load
- ▶ Lifting support housing with helical toothed gear rod
- ▶ Stable base for assured stability
- ▶ Safe and easy operation with two handles - also for easy transportation
- ▶ Space-saving storage and transport thanks to folding crank

Model	SW 30	SW 50	SW 100
Art. no.	6171203	6171205	6171210
Technical specifications			
Load-carrying capacity	3 t	5 t	10 t
Stroke	335 mm	335 mm	345 mm
Length	296 mm	189 mm	250 mm
Width/depth	197 mm	335 mm	498 mm
height	730 mm	730 mm	800 mm
Weight	21.2 kg	28.5 kg	46.8 kg

- ▶ Stable design as per DIN 7355
- ▶ With self-arresting safety thrust roller crank

SW 30

– Hydraulic machine lift

- ▶ Stable, welded steel design for demanding applications
- ▶ For safe lifting of heavy loads
- ▶ Pump unit rotatable
- ▶ Removable pump lever

Equipment HMH 5:

- ▶ 360° rotatable grab and/or base plate

Equipment HMH 10:

- ▶ 360° rotatable grab and/or base plate

Equipment HMH 25:

- ▶ Chassis

Model	HMH 5	HMH 10	HMH 25

PLM series – Permanent load lifting magnets for lifting loads up to 2000 kg

- ▶ Independent of rechargeable batteries or external power supply
- ▶ Easy switching on and off by switching the hand lever
- ▶ Lever locked by safety detent in active state prevents unintentional demagnetisation

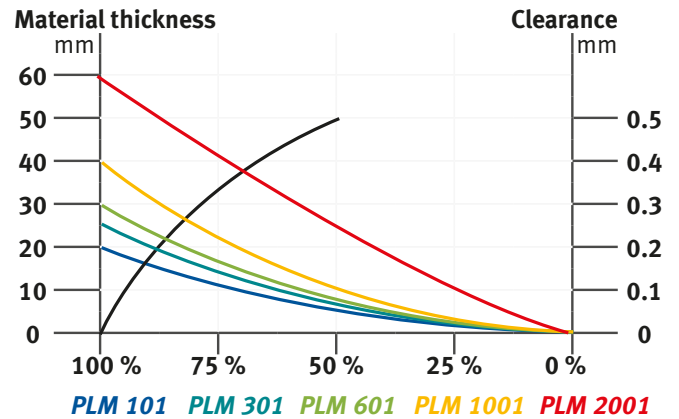

- ▶ High safety standard thanks to certified safety factor 3.5
- ▶ For flat and round material thanks to V-design baseplate

PLM 601

Model	PLM 101	PLM 301	PLM 601	PLM 1001	PLM 2001

Distance between mount and load hook	265 mm	265 mm	265 mm
Inner diameter of mount	20 mm	20 mm	20 mm
Depth	46 mm	46 mm	46 mm
Weight	0.65 kg	0.65 kg	0.65 kg

- ▶ High precision
- ▶ Calibration capable as per OIML R76 standard
- ▶ Compact design
- ▶ Tare over full range

HW 50

KW series – Crane balances for determining the weight of suspended loads up to 10 t

- ▶ Controlled via remote control and display directly on the device
- ▶ Value can be stored and frozen
- ▶ Automatic switch-off function
- ▶ Remote control range up to 10 m
- ▶ Easy to determine the net weight thanks to tare function
- ▶ Overload warning in display
- ▶ Bright and easily readable LED display with 30 mm digit height
- ▶ Summation function for serial weighing
- ▶ Power supply via replaceable internal rechargeable battery; can be charged without removing from device

Model	KW 50	KW 100
Art. no.	6171405	6171410

Technical specifications		
Load-carrying capacity	5 t	10 t
Overload max.	400 %	400 %
Display units	< 2 t: 1 kg 2 - 5 t: 2 kg	< 2 t: 1 kg 2 - 5 t: 2 kg 5 - 10 t: 10 kg
Stabilisation time	<10 s	<10 s
Distance between mount and load hook	585 mm	770 mm

Clearance width load hook	45 mm	60 mm
Dimensions (L x W x H)	230 x 325 x 650 mm	230 x 364 x 810 mm
Weight	25 kg	47 kg

Scope of delivery:

- ▶ Remote control incl. batteries
- ▶ Rechargeable battery 6 V / 10 Ah
- ▶ Power adapter

- ▶ High precision
- ▶ Calibration capable as per OIML R76 standard
- ▶ Tare over full range
- ▶ Remotely controllable

KW 50

Battery chargers

Booster cables

- ▶ Fully insulated terminal clamps
- ▶ Plastic sheathed
- ▶ Without overvoltage protection

▶ Fully insulated terminal clamps

Scope of delivery:

- 1 Booster cable red
- 1 Booster cable black
- Round plastic bag with zip

Model	Booster cable 16mm ² length 3m	Booster cable 25mm ² length 3.5m	Booster cable 35mm ² length 4.5m
Art. no.	6860000	6860001	6860002
Technical specifications			
Cable length	2 x 3 m	2 x 3.5 m	2 x 4.5 m
Cable cross-section	16 mm ²	25 mm ²	35 mm ²
Max. current load	220 A	350 A	480 A
Current-carrying material	Copper laminated aluminium (CCA)		
Standard	DIN 72553-16	DIN 72553-25	DIN 72553-35
Suitable for batteries	12/24 V	12/24 V	12/24 V
Suitable for engines	Petrol	Petrol/Diesel	Petrol/Diesel
Weight (pair)	1.8 kg	2.2 kg	2.5 kg

Electronic overvoltage protection EUS 12/24 –

To protect the on-board electronics of vehicles against voltage peaks

- ▶ Voltage peaks are continuously absorbed and suppressed
- ▶ To protect the vehicle electric system against damage, e.g., caused by welding work on the body without disconnecting the battery
- ▶ Red LED shows active overload protection
- ▶ With reverse-polarity protection
- ▶ Premium and robust design of the device guarantees a long service life
- ▶ Very easy to use

▶ Easy to connect to the battery

Model		EUS 12/24
Art. no.		6401012
Technical specifications		
Supply voltage	V	12 / 24
Current type		DC
Fuse	A	T3, 15
Output cable length	mm	550
Degree of protection		IP 20
Charging applications		Motorcycles, cars, vans, goods vehicles <7.5t
Length x width x height	mm	90 x 55 x 20
Weight	kg	0.22

Standard equipment

- Voltage peak protection
- Reverse polarity short circuit protection
- Audible signal in case of voltage peaks
- Cable +/- with standard crocodile clips

Battery chargers

BC 14 – Manual battery charger for wet batteries with a charge voltage of 12 or 24 Volt

- ▶ Robust solution for use with most motor vehicles - from motorcycles through to small transporters, up to 7.5 tonne light trucks

- ▶ Rugged steel sheet device housing and flame-resistant plastic
- ▶ Two years manufacturer warranty

- ▶ Charging cycle as per W characteristic curve with falling current level and rising voltage

▶ Analogue amperemeter

▶ Normal or fast charging configurable

Model	BC 14
Art. no.	6850100

Technical specifications		
Charging voltage	12 V	24 V
Charging current	7 A	4 A
Charging capacity	15 - 100 Ah	
Output / Voltage	140 W / 230 V	
Charge cycles	4	
Suitable for battery types	Wet	
Charging applications	Bike, car, MPV, ST, Truck <7.5t	
Dimensions (L x W x H)	250 x 150 x 210 mm	
Weight	3.8 kg	

12 V
24 V

Standard equipment

- Analogue amperemeter
- Charging cable short circuit protection
- Reverse polarity short circuit protection
- Thermal protection switch with auto-reset
- Charging cable +/- with standard crocodile clips
- Connecting cable 230 Volt with safety connector

ABC 40 – Professional, automatic battery charger/maintenance device for wet, gel and AGM batteries with a charging voltage of 12 and 24 Volt

- ▶ Easy to operate model with microprocessor control
- ▶ Suitable for motorcycles, cars, agricultural vehicles and trucks up to 7.5 tonnes

- ▶ Automatic charging cycle control as per the WUoU characteristic with two different phases: the first as per the W characteristic with a falling current level and rising voltage up to the nominal charge voltage, the second as per the UoU characteristic

- ▶ Due to automatic switchover between charging and maintenance operation, the battery can be permanently connected. Perfect, e.g., for winter storage of vehicles.

▶ Automatic charging and charge conservation

▶ Normal or fast charging configurable

Model	ABC 40
Art. no.	6850210

Technical specifications		
Charging voltage	12 V	24 V
Charging current	12 A	7 A
Charging capacity	10 - 180 Ah	
Output / Voltage	400 W / 230 V	
Number of operating modes	8	
Suitable for battery types	Wet, Gel, AGM	
Charging applications	Bike, car, Ag, Truck <7.5t	
Dimensions (L x W x H)	250 x 210 x 280 mm	
Weight	8 kg	

12 V
24 V

Standard equipment

- LED signal for reverse polarity, incorrect voltage or malfunction
- LED signal for charging and end of charging
- Charging cable short circuit protection
- Reverse polarity short circuit protection
- Thermal protection switch with auto-reset
- Charging cable +/- with standard crocodile clips
- Connecting cable 230 Volt with safety connector

ABC 8 – Automatic battery charger/maintenance device with electronic control for wet, gel and AGM batteries with a charging voltage of 12 Volt

- ▶ For use with motorcycles, cars, and MPVs
- ▶ Easy to use thanks to automatic control
- ▶ Due to automatic switchover between charging and maintenance operation, the battery can be permanently connected. Perfect, e.g., for winter storage of vehicles.
- ▶ Convenient to transport due to low weight and ergonomic carrying handle

- ▶ Automatic charging and charge conservation
- ▶ Normal or fast charging configurable

Model	ABC 8
Art. no.	6850200

Technical specifications	
Charging voltage	12 V
Charging current	4 A
Charging capacity	20 - 70 Ah
Output / Voltage	80 W / 230 V
Number of operating modes	2
Suitable for battery types	Wet, Gel, AGM
Charging applications	Bike, car, MPV
Dimensions (L x W x H)	200 x 75 x 190 mm
Weight	2.1 kg

12 V

Scope of delivery:

Carrying handle
Storage compartments for power and charging cables

Standard equipment

LED signal for reverse polarity, incorrect voltage or malfunction
LED signal for charging and end of charging
Charging cable short circuit protection
Reverse polarity short circuit protection
Thermal protection switch with auto-reset
Charging cable +/- with standard crocodile clips
Connecting cable 230 Volt with safety connector

ABC 11 – Automatic battery charger/maintenance device with electronic control for wet, gel and AGM batteries with a charging voltage of 12 Volt

- ▶ Suitable for use with motorcycles, cars, MPVs and small transporters
- ▶ Easy to use thanks to automatic control
- ▶ Due to automatic switchover between charging and maintenance operation, the battery can be permanently connected. Perfect, e.g., for winter storage of vehicles.
- ▶ Convenient to transport due to low weight and ergonomic carrying handle

- ▶ Automatic charging and charge conservation
- ▶ Normal or fast charging configurable

Model	ABC 11
Art. no.	6850205

Technical specifications	
Charging voltage	12 V
Charging current	8 A
Charging capacity	20 - 110 Ah
Output / Voltage	110 W / 230 V
Number of operating modes	4
Suitable for battery types	Wet, Gel, AGM
Charging applications	Bike, car, MPV, ST
Dimensions (L x W x H)	255 x 95 x 235 mm
Weight	2.7 kg

12 V

Scope of delivery:

Carrying handle
Storage compartments for power and charging cables

Standard equipment

LED signal for reverse polarity, incorrect voltage or malfunction
LED signal for charging and end of charging
Charging cable short circuit protection
Reverse polarity short circuit protection
Thermal protection switch with auto-reset
Charging cable +/- with standard crocodile clips
Connecting cable 230 Volt with safety connector

Battery chargers

ABC 350 S – Professional, automated battery charger/starter device for wet, gel and AGM batteries with a charging voltage of 12 and 24 Volt

- ▶ Suitable for professional use
- ▶ Automatic operation provides 100 % protection of vehicle electronics against voltage peaks (starting)
- ▶ Automatic operation switches over to (charge) conservation at end of charging
- ▶ Thermal overload protection

› Automatic charging and charge conservation

› For normal and fast charging

Model	ABC 350 S
Art. no.	6850450

Technical specifications		
Charging voltage	12 V	24 V
Charging current	45 A	30 A
Charging capacity	30 - 350 Ah	
Startup output	200 A	
Peak output	300 A	
Output / Voltage	1000 - 5000 W / 230 V	
Number of operating modes	6	
Suitable for battery types	WET/GEL/AGM	
Charging applications	Motorcycles, cars, Ag, boats	
Starting applications	Motorcycles, cars, Ag, boats	
Dimensions (L x W x H)	330 x 245 x 730 mm	
Weight	14.6 kg	

Scope of delivery:

Storage compartment for cables
Chassis (transport handle, wheel set)

Standard equipment

Digital ammeter
Charge and starting current display
LED signal for charging and end of charging
Charging cable short circuit protection
Reverse polarity short circuit protection
Overload protection
Thermal protection switch with auto-reset
Charging cable +/- with standard crocodile clips
Connecting cable 230 Volt with safety connector

ABC 550 S – Professional, automated battery charger/starter device for wet, gel and AGM batteries with a charging voltage of 12 and 24 Volt

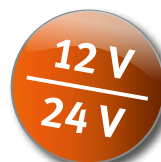

- ▶ Suitable for professional use
- ▶ Automatic operation provides 100 % protection of vehicle electronics against voltage peaks (starting)
- ▶ Automatic operation switches over to (charge) conservation at end of charging
- ▶ Thermal overload protection

› Automatic charging and charge conservation

› For normal and fast charging

Model	ABC 550 S
Art. no.	6850455

Technical specifications		
Charging voltage	12 V	24 V
Charging current	75 A	50 A
Charging capacity	30 - 550 Ah	
Startup output	300 A	
Peak output	400 A	
Output / Voltage	1 500 - 10 000 W / 230 V	
Number of operating modes	6	
Suitable for battery types	WET/GEL/AGM	
Charging applications	Motorcycles, cars, Ag, boats, trucks<7.5t, construction vehicles	
Starting applications	Motorcycles, cars, boats	
Dimensions (L x W x H)	330 x 280 x 800 mm	
Weight	18.7 kg	

Scope of delivery:

Storage compartment for cables
Chassis (transport handle, wheel set)

Standard equipment

Digital ammeter
Charge and starting current display
LED signal for charging and end of charging
Charging cable short circuit protection
Reverse polarity short circuit protection
Overload protection
Thermal protection switch with auto-reset
Charging cable +/- with standard crocodile clips
Connecting cable 230 Volt with safety connector

ABC 950 S – Professional, automated battery charger/starter device for wet, gel and AGM batteries with a charging voltage of 12 and 24 Volt

- Suitable for professional use
- Automatic operation provides 100 % protection of vehicle electronics against voltage peaks (starting)
- Automatic operation switches over to (charge) conservation at end of charging
- Thermal overload protection
- Fast start can also be activated via remote start. For example, from inside the vehicle thanks to 3.35 m cable length
- Fast charging controllable manually or via timer
- Device can be operated with 230 or 400 Volt power supply

► Automatic charging and charge conservation

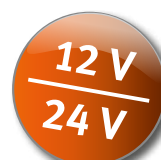

► For normal and fast charging

► Fast start also via remote start controller

► Fast charging with timer

Model	ABC 950 S
Art. no.	6850460

Technical specifications		
Charging voltage	12 V	24 V
Charging current	180 A	120 A
Charging capacity	30 - 1 000 Ah	
Startup output	1 000 A	
Peak output	1 500 A	
Output / Voltage	3 000 - 20 000 W / 400 V	
Number of operating modes	6	
Suitable for battery types	WET/GEL/AGM	
Charging applications	Motorcycles, cars, Ag, boats, trucks<7.5t, trucks>7.5t, building sites	
Starting applications	Motorcycles, cars, Ag, boats, trucks<7.5t, trucks>7.5t, building sites	
Dimensions (L x W x H)	770 x 560 x 330 mm	
Weight	68 kg	

Scope of delivery:

Chassis (transport handle, wheel set)

Standard equipment

Digital ammeter
Digital voltmeter
LED signal for reverse polarity, incorrect voltage or malfunction
LED signal for charging and end of charging
Charging cable short circuit protection
Reverse polarity short circuit protection
Overload protection
Thermal protection switch with auto-reset
Charging cable +/- with standard crocodile clips
Connecting cable for 230V or 400V operation without connector

EBC 7 – Electronic battery charger/maintenance device for wet, gel and AGM batteries with a charging voltage of 6 and 12 Volt Great range of functions in a handy package.

- Very easy to use thanks to ergonomic and clear-cut design
- Optimal control through all phases of the automatic charging cycle and maintenance operation via illuminated display
- Optimal charging of the battery also in sub-0 °C temperatures with special winter mode. The device uses a higher charging current and higher voltage in this mode.
- IP65: Device is dust-tight and protected against splash water from any angle

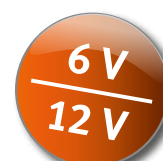

► Winter mode

► Battery voltage test

► Dust-tight and protected against splash water as per IP 65

► Test of alternator charge voltage

► Automatic battery voltage detection

Model	EBC 7
Art. no.	6850300

Technical specifications	
Charging voltage	6 / 12 V
Charging current	1 - 4 A
Charging capacity	4 - 80 Ah
Maintenance capacity	4 - 120 Ah
Output / Voltage	70 W / 230 V
Number of operating modes	6
Suitable for battery types	Wet, Gel, AGM
Charging applications	Bike, car, MPV
Dimensions (L x W x H)	190 x 80 x 50 mm
Weight	0.75 kg

Scope of delivery:

Charging cable +/- 150 cm with quick release plug connection
Charging cable +/- 50 cm with quick release connectors and crocodile clips
Charging cable +/- 50 cm with quick release connectors and M6 ring clamps
Mounting bracket

Standard equipment

Automatic battery voltage detection
Winter mode
Digital display for device functions and status
LED signal for reverse polarity, incorrect voltage or malfunction
Acoustic signal for reverse polarity, incorrect voltage or malfunction
Charging cable short circuit protection
Reverse polarity short circuit protection
Charging cable +/- with standard crocodile clips
Charging cable +/- with M6 eye clamps
Connecting cable 230 Volt with safety connector

Battery chargers

EBC 15 R – Electronic battery charger/maintenance device for wet, gel and AGM batteries with a charging voltage of 12 Volt Great range of functions in a handy package.

- ▶ Very easy to use thanks to ergonomic and clear-cut design
- ▶ Optimal control through all phases of the automatic charging cycle and maintenance operation via illuminated display

- ▶ Can be used in maintenance charging mode as a power supply for keeping the vehicle's electronics settings. Important for recent cars where a battery change can only be performed in this mode

- ▶ For regenerating batteries following short-term deep discharge
- ▶ **Restart function:** In case of power failure, the device keeps the charge state for up to twelve hours and restarts at this point when power is restored. Without a restart function it would start again from the beginning
- ▶ **IP65:** Device is dust-tight and protected against splash water from any angle

› Regeneration function

› Backup charging operation (memory saver)

› Dust-tight and protected against splash water as per IP 65

› Restart function

Model	EBC 15 R
Art. no.	6850305

Technical specifications	
Charging voltage	12 V
Charging current	2 - 8 A
Charging capacity	5 - 160 Ah
Maintenance capacity	5 - 250 Ah
Output / Voltage	140 W / 230 V
Number of operating modes	9
Suitable for battery types	Wet, Gel, AGM
Charging applications	Motorcycles, cars, MPUs, small transporters, trucks<7.5t, boats
Dimensions (L x W x H)	230 x 100 x 65 mm
Weight	1 kg

12 V

Scope of delivery:

Charging cable +/- 150 cm with quick release plug connection
Cable +/- 50 cm with quick release connectors and crocodile clips
Charging cable +/- 50 cm with quick release connectors and M6 ring clamps
Mounting bracket

Standard equipment

Backup charging operation (memory saver)
Digital display for device functions and status
LED signal for reverse polarity, incorrect voltage or malfunction
Acoustic signal for reverse polarity, incorrect voltage or malfunction
LED signal for charging and end of charging
Charging cable short circuit protection
Reverse polarity short circuit protection
Charging cable +/- with standard crocodile clips
Charging cable +/- with M6 eye clamps
Connecting cable 230 Volt with safety connector

EBC 35 R – Electronic battery charger/maintenance device for wet, gel and AGM batteries with a charging voltage of 12 or 24 Volt

- ▶ Very easy to use thanks to ergonomic and clear-cut design
- ▶ Buttons for setting the charging functions, battery type and battery voltage
- ▶ Charging and maintenance are automatic in line with special characteristic curves geared to the battery type

- ▶ Three-phase diagnostics mode
- ▶ Processor-controlled eight-phase charging cycle
- ▶ For regenerating batteries following short-term deep discharge
- ▶ Can be used in maintenance charging mode as a power supply for keeping the vehicle's

electronics settings. Important for recent cars where a battery change can only be performed in this mode

› Regeneration function

› Backup charging operation (memory saver)

Model	EBC 35 R
Art. no.	6850310

Technical specifications		
Charging voltage	12 V	24 V
Charging current	15 A	7.5 A
Charging capacity	30 - 330 Ah	
Maintenance capacity	30 - 500 Ah	
Output / Voltage	350 W / 230 V	
Number of operating modes	16	
Suitable for battery types	Wet, Gel, AGM	
Charging applications	Motorcycles, cars, MPUs, small transporters, trucks>7.5t, boats, Ag, construction vehicles	
Dimensions (L x W x H)	260 x 135 x 72 mm	
Weight	1.8 kg	

12 V
24 V

Scope of delivery:

Transport case

Standard equipment

Backup charging operation (memory saver)
Digital display for charging voltage and current
Battery status display
LED signal for reverse polarity, incorrect voltage or malfunction
Acoustic signal for reverse polarity, incorrect voltage or malfunction
LED signal for charging and end of charging
Charging cable short circuit protection
Reverse polarity short circuit protection
Charging cable +/- with standard crocodile clips
Connecting cable 230 Volt with safety connector

BC 17 S – Portable battery charging/start booster device for 12 Volt wet batteries

BC 32 S – Portable battery charging/start booster device for 12 and 24 Volt wet batteries

- ▶ For quick starting of motorcycles and cars
- ▶ Selector switch for normal and fast charging
- ▶ Overload, short circuit and reverse polarity protected
- ▶ Charging current can be read off on analogue amperemeter

Model	BC 17 S	BC 32 S
Art. no.	6850400	6850405

Technical specifications		
Charging voltage	12 V	12 V 24 V
Charging current	12 A	30 A 26 A
Charging capacity	20 - 150 Ah	30 - 350 Ah
Startup output	60 A	160 A
Peak output	100 A	250 A
Output / Voltage	200 - 1 200 W / 230 V	850 - 4 000 W / 230 V
Number of operating modes	4	6
Suitable for battery types	Wet	Wet
Charging applications	Bike, car, MPV, ST, Ag	Bike, car, MPV, ST, trucks<7.5t, boats, Ag
Starting applications	Bike, car	Bike, car, MPV, ST
Dimensions (L x W x H)	150 x 265 x 335 mm	
Weight	5.8 kg 10 kg	

Standard equipment

- Normal and fast charging
- Analogue amperemeter
- Charging cable short circuit protection
- Reverse polarity short circuit protection
- Overload protection
- Thermal protection switch with auto-reset
- Charging cable +/- with standard crocodile clips
- Connecting cable 230 Volt with safety connector

BC 350S – Mobile battery charging/start booster device for 12 and 24 Volt wet batteries

- ▶ Suitable for quick starting of cars, MPVs, transporters, motorboats and tractors
- ▶ Displays the charging and starting current via amperemeter
- ▶ Overload, short circuit and reverse polarity protected
- ▶ Voltage peak protection thanks to varistor
- ▶ Rugged steel sheet device housing and flame-resistant plastic
- ▶ **W charging characteristic:** Charging cycle as per W characteristic with falling current level and rising voltage

▶ For normal and fast charging

Model	BC 350 S
Art. no.	6850410

Technical specifications		
Charging voltage	12 V	24 V
Charging current	30 A	30 A
Charging capacity	30 - 350 Ah	
Startup output	200 A	
Peak output	300 A	
Output / Voltage	1 000 - 5 000 W / 230 V	
Number of operating modes	6	
Suitable for battery types	Wet	
Charging applications	Bike, car, MPV, ST, Ag, boats	
Starting applications	Car, ST, MPV, Ag, boats	
Dimensions (L x W x H)	330 x 245 x 730 mm	
Weight	14 kg	

BC 350 S

Scope of delivery:

Chassis (transport handle, wheel set)

Standard equipment

- Analogue amperemeter
- Charging cable short circuit protection
- Reverse polarity short circuit protection
- Overload protection
- Thermal protection switch with auto-reset
- Charging cable +/- with standard crocodile clips
- Connecting cable 230 Volt with safety connector

Battery chargers

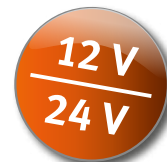

BC 550S – Mobile battery charging/start booster device for 12 and 24 Volt wet batteries

- Suitable for quick starting of cars, MPVs, transporters and motorboats
- Overload, short circuit and reverse polarity protected

- Displays the charging and starting current via amperemeter
- Voltage peak protection thanks to varistor

- Rugged steel sheet device housing and flame-resistant plastic
- **W charging characteristic:** Charging cycle as per W characteristic with falling current level and rising voltage

► For normal and fast charging

Model	BC 550 S
Art. no.	6850415

Technical specifications		
Charging voltage	12 V	24 V
Charging current	50 A	50 A
Charging capacity	30 - 550 Ah	
Startup output	300 A	
Peak output	500 A	
Output / Voltage	1 500 - 10 000 W / 230 V	
Number of operating modes	6	
Suitable for battery types	Wet	
Charging applications	Bike, car, MPV, ST, Ag, boats, truck<7.5t, construction	
Starting applications	Car, MPV, ST, Ag, boats	
Dimensions (L x W x H)	330 x 280 x 800 mm	
Weight	18 kg	

Scope of delivery:

Chassis (transport handle, wheel set)

Standard equipment

Digital ammeter
Charging cable short circuit protection
Reverse polarity short circuit protection
Overload protection
Thermal protection switch with auto-reset
Charging cable +/- with standard crocodile clips
Connecting cable 230 Volt with safety connector

MBC 55 S – Professional, multifunctional battery charger/starter device for wet, gel and AGM batteries with a charging voltage of 12 and 24 Volt

- Suitable for all vehicles from motorcycles, through semi-trailers to motorboats.
- Excellent operating safety in fast and conservation charging mode
- Microprocessor-controlled device

- Automatic charging cycles with up to ten charging and analysis phases
- Three programmed charging cycles, one manual charging cycle
- 100 % protection of vehicle electronics against voltage peaks during starting

- Can be used in maintenance charging mode as a power supply for keeping the vehicle's electronics settings. Important for recent cars where a battery change can only be performed in this mode

► For normal and fast charging

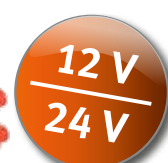

► Bench-top model

► Backup charging operation (memory saver)

► Regeneration and conservation function

Model	MBC 55 S
Art. no.	6850500

Technical specifications		
Charging voltage	12 V	24 V
Charging current	50 A	50 A
Charging capacity	4 - 550 Ah	
Startup output	300 A	
Peak output	400 A	
Output / Voltage	1 500 - 10 000 W / 230 V	
Number of operating modes	6	
Suitable for battery types	Wet, Gel, AGM	
Charging applications	Motorcycles, cars, MPVs, STs, Ag, boats, trucks<7.5t, trucks>7.5t, commercial vehicles, building sites	
Starting applications	Motorcycles, cars, MPVs, STs, Ag, boats, trucks<7.5t, trucks>7.5t, commercial vehicles, building sites	
Dimensions (L x W x H)	310 x 250 x 400 mm	
Weight	19 kg	

Scope of delivery:

Carrying handle
Cable holders

Standard equipment

Backup charging operation (memory saver)
Continuous selection of charging current
Digital display for charging voltage and current
Digital ammeter
Battery status display
Charging and start voltage display
LED signal for reverse polarity, incorrect voltage or malfunction
LED signal for charging and end of charging
Charging cable short circuit protection
Reverse polarity short circuit protection
Overload protection
Thermal protection switch with auto-reset
Charging cable +/- with standard crocodile clips
Connecting cable 230 Volt with safety connector

Weight	29.5 kg	

12 V
24 V

Scope of delivery:

Chassis (transport handle, wheel set)
Cable holders

Standard equipment

Remote start
Backup charging operation (memory saver)
Continuous selection of charging current
Digital display for charging voltage and current
Digital ammeter
Battery status display
Charging and start voltage display
LED signal for reverse polarity, incorrect voltage or malfunction
LED signal for charging and end of charging
Charging cable short circuit protection
Reverse polarity short circuit protection
Overload protection
Thermal protection switch with auto-reset
Charging cable +/- with standard crocodile clips
Connecting cable 230 Volt with safety connector

Battery chargers

SB 200 MS – ultra-light, mains-independent start booster with high output

- ▶ An indispensable device for professional users in repair and body shops and vehicle electrical system workshops for daily use on all vehicle types with 12-Volt batteries
- ▶ Microprocessor controlled
- ▶ Easy handling and ergonomic design
- ▶ Charging of internal battery via power supply

Premium LiFePO₄ rechargeable battery built in

- ▶ Low self-discharging
- ▶ No damage in case of extended discharge periods
- ▶ Service life five times higher than devices with legacy batteries, approx. 3000 cycles
- ▶ Greater inherent safety against overheating compared with legacy batteries

Backup charging mode

- ▶ Can be used in maintenance charging mode as a power supply for keeping the vehicle's electronics settings. Important for recent cars where a battery change can only be performed in this mode

› LiFePO₄ battery with excellent inherent safety

› Voltage peak protection

› Protection of vehicle electronics

› Backup charging operation (memory saver)

Model	SB 200 MS
Art. no.	6850650

Technical specifications	
Start voltage	12 V
Peak output	2000 A
I-Start	800 A
Supply voltage	230 V
Charging cable length	0.5 m
Suitable for battery types	WET/GEL/AGM
Starting applications	Motorcycles, boats, cars, vehicles, commercial vehicles,
Dimensions (L x W x H)	260 x 135 x 72 mm
Weight	2.4 kg

Scope of delivery:

Built-in LiFePO₄ battery
External power supply
0.5 m starter cable with professional crocodile clips
Cable holder
Mounting bracket

Standard equipment

Backup charging operation (memory saver)
Battery voltage display
Charging cable short circuit protection
Reverse polarity short circuit protection
Overload protection
Voltage peak protection
Protection of vehicle electronics
Charging cable +/- with professional crocodile clips
Connecting cable 230 Volt with safety connector

SB 500 – Start booster for wet, gel and AGM batteries with a charging voltage of 12 and 24 Volt

- ▶ Indispensable device for professional users for daily deployment in repair, body and auto electrics shops
- ▶ For all vehicle types with 12 Volt lead batteries
- ▶ Easy and ergonomic handling

- ▶ Protects vehicle electronics against damage during starting
- ▶ Voltage peak protection

- ▶ Built-in battery charger for charging the internal battery
- ▶ Direct charging of the starting device in the vehicle interior via cigarette lighter connecting cable

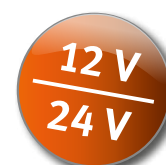

› Voltage peak protection

› Protection of vehicle electronics

› Durable and cycle-proof Hawker battery built-in

Model	SB 500
Art. no.	6850605

Technical specifications		
Start voltage	12 V	24 V
Peak output	4 400 A	2 200 A
I-Start	700 - 1 400 A	
Supply voltage	230 V	
Suitable for battery types	Wet, Gel, AGM	
Starting applications	Motorcycles, cars, MPVs, STs, Ag, boats, trucks<7.5t, trucks>7.5t, commercial vehicles, building sites	
Dimensions	405 x 180 x 380 mm	
Weight	18 kg	

Scope of delivery:

Built-in Hawker battery with charger
1.6 m starter cable with professional crocodile clips
Carrying handle
Cable holders

Standard equipment

Analogue amperemeter
Overload protection
Voltage peak protection
Protection of vehicle electronics
Charging cable +/- with professional crocodile clips
Connecting cable 230 Volt with safety connector and for cigarette lighter

Power generators

Overview of power generators

Choose the right power generator

- The stated performance is a guide value only and can deviate up or down in individual cases

Ohmic consumers

- Consist of one or multiple resistors, i.e., electrical components that mainly generate heat or light.
Examples: Ovens, light bulbs, irons, HVACs, coffee machines, fan heaters, kettles, etc.

Inductive consumers

- Mainly electromagnetic consumers, i.e., electrical components that generate electromagnetic energy. These devices may need a multiple of their rated current as start-up current.
Examples: Fans, drills, pumps, bench-top circular saws, manual circular saws, electric heaters, compressors, concrete mixers, water pump, compactors, etc.

Generator design

- When comparing the output values of the power generator and the generator, it is important to ensure that the draw does not exceed the continuous output performance (COP) of the power generator.
- **SYNCHRONOUS generators** (except PG-E 30 SRA, PG-E 40 SRA, PG-E 60 SEA, PG-E 80 TEA) can be overloaded by up to 3x their normal capacity in the short term. This means that they are also possible for professional tools with electric motors that require a high start-up current, e.g., hammer drills and angle grinders. Power generators with AVR (electronic voltage control) are particularly well suited for sensitive consumers such as domestic emergency power supplies, inverter welding equipment, and electronically controlled power tools.
- **IP54 SYNCHRONOUS generators** (PG 800 X-TEA-54, PG 1200 X-TEA-54) 4x short-term overload capable. This makes them suitable for electric motors with a high start-up draw as found in compressors and machines. Thanks to their degree of protection, IP54, 200 % asymmetrical load capability, these units are deployed in special applications, in adverse weather conditions and as emergency generating units.

The appliance names – what the individual designations mean

PG	Power generator
-I	Inverter
-D	Diesel
-E	Eco
-X	Insulation monitoring
T	400 V
S	230 V
E	Electric start
R	Reversing start
A	AVR control
-54	IP degree of protection IP 54

Power generators

Inverter power generator PG-I – low noise, for demanding private users and semi-professionals

- ▶ Reliable power generating set for home and garden, camping, caravanning, boats, computers and other sensitive electronic devices
- ▶ Inverter technology for constant power output
- ▶ Output dependent continuous speed control through automatic clutch ensures low noise level
- ▶ Choke for easy cold starting
- ▶ Overload protection through thermal circuit breaker
- ▶ Low oil level shut-off with warning indicator
- ▶ Indicator lamps for output voltage, overload and low oil
- ▶ Connections and controls clearly arranged

▶ Manual pull starter

PG-I 20 S

- ▶ Lightweight, portable power generator with compact design
- ▶ Higher rated output possible by connecting two inverter power generators

- | | |
|-----------------------------------|-----------------------------------|
| 1) ON/OFF switch for the engine | 8) Oil check lamp |
| 2) Energy-saver switch | 9) Safety switch 8A DC |
| 3) Output 12 V 8A | 10) Fuel cock |
| 4) 230 V safety socket connection | 11) Connections for parallel link |
| 5) Choke | 12) Ground connection |
| 6) Indicator lamp AC | |
| 7) Overload indicator | |

PG-I 40 S

- ▶ Mobile power generator with up to 13 hours running time
- ▶ Two A/C current 230V safety sockets

- | | |
|---------------------------------|---------------------------------------|
| 1) ON/OFF switch for the engine | 7) Electrical starter switch |
| 2) Fuel cock | 8) 2 x 230 V safety socket connection |

Connecting cable for coupling two devices	6706299

Inverter power generator PG-I 21 S – low noise and compact

► Reliable power generating set for home and garden, camping, caravanning, boats, computers and other sensitive electronic devices

► Using the integrated Wi-Fi transmitter, the device can be switched off and controlled via an app (e.g., oil/petrol check)
► Inverter technology for constant power output
► Output dependent continuous speed control through automatic clutch ensures low noise level

► Pull starter for easy cold starting
► Overload protection through thermal circuit breaker
► Low oil level shut-off with warning indicator
► Connections and controls clearly arranged

- 1) ON/OFF switch for the engine
- 2) Fuel cock
- 3) Electrical starter switch
- 4) 2 x AC 230V shockproof connection
- 5) 1 x 5V 1A USB charging connection
- 6) 1 x 5V 2A USB charging connection
- 7) Safety switch 8A DC
- 8) Output DC 12V 8A
- 9) WiFi control light
- 10) POWER control light
- 11) Reset button

New

► Equipped with carrying handle and separate pull-out handle

► Easy to stow away thanks to compact design

Model		PG-I 21 S

Dimensions (L x W x H)	mm	530 x 320 x 430
Weight	kg	24

► Convenient to transport thanks to carriage and pull-out handle

Power generators

PG-E series – Synchronous generators for demanding private users and semi-professional applications

- ▶ All generators feature copper windings
- ▶ Short-term output of up to 3x rated output
- ▶ Automatic voltage control AVR
- ▶ Overload protection through thermal circuit breaker
- ▶ Low oil level shut-off with warning indicator
- ▶ 3 in 1 display for voltage, frequency and operating hours
- ▶ Long running time thanks to large tank
- ▶ Tank with fill level indicator
- ▶ Connections ergonomically positioned on the front
- ▶ Equipped with a wheelset and stable folding handle

Large tank 15 l

PG Series – Powerful and robust synchronous generators; easy to handle; quickly deployable at any time. Highly suitable for machines with a high starting current, and for power tools

PG 320 SR and PG 400 SR

- ▶ Professional generator with standard design
- ▶ Maximum reliability and efficiency
- ▶ Capacitor-controlled generators
- ▶ Connections ergonomically positioned on the front
- ▶ Overload protection through thermal circuit breaker
- ▶ Low oil level shut-off
- ▶ Short-term output of up to 3x rated output

PG 400 SRA, PG 500 SRA and PG 800 SRA

- ▶ Long running time thanks to large 11l tank
- ▶ Electronic voltage control AVR
- ▶ Splash and impact protection through trim panels
- ▶ Connections ergonomically positioned on the front
- ▶ Overload protection through thermal circuit breaker
- ▶ Low oil level shut-off
- ▶ Short-term output of up to 3x rated output

Power generators

PG series – Professional synchronous generators, designed for demanding users and continuous commercial use. Highly suitable for machines with a high starting current, and for power tools

PG 500 TRA and PG 800 TRA

- ▶ Long running time thanks to large 11l tank
- ▶ Electronic voltage control AVR
- ▶ Splash and impact protection through trim panels
- ▶ Connections ergonomically positioned on the front
- ▶ Overload protection through thermal circuit breaker
- ▶ Low oil level shut-off
- ▶ Short-term output of up to 3x rated output
- ▶ Universally deployable for 230V and 400V consumers

PG 500 X-SEA and PG 800 X-SEA

- ▶ Long running time thanks to large 18l tank
- ▶ Electronic voltage control AVR
- ▶ Splash and impact protection through trim panels
- ▶ Connections ergonomically positioned on the front in a control panel with a voltmeter and an operating hour counter
- ▶ Thermal magnetic circuit breaker for protection against overload and short circuit caused by faulty consumers or cables
- ▶ Reliable personal protection thanks to insulation monitoring (device does not need to be grounded)
- ▶ Low oil level shut-off
- ▶ Really convenient thanks to electric starter

FINANCING *THROUGH* LEASING

Leasing offers companies a number of advantages over purchase or credit financing. The most important aspects are:

Tax benefits

Leasing instalments are fully tax deductible as operating expenses if the leased object is assigned to the lessor for tax purposes.

Balance sheet neutral

Leasing objects do not appear in the lessee's balance sheet. Only the leasing instalments are recorded as operating expenses in the profit and loss account. The equity ratio and the debt ratio do not change. The lessor capitalises the leased asset as fixed assets or leased assets. (Off-balance-sheet financing)

Calculation basis

The leasing rate is not influenced by changes in interest rates or ratings, even in the long term, and thus serves as a reliable basis for calculation.

Liquidity

Since the leasing company is responsible for financing the object, the lessee has more financial leeway for future decisions. Additionally, dependency on banks is reduced.

"Pay as you earn" considerations

As the leasing instalments are due parallel to the use of the object, the leasing object more or less finances itself (effect/cost congruity). Financing costs are spread over the duration of use and thus also over the period in which income is generated from the object. Advance financing is thus avoided.

Planning reliability

The amount of the leasing instalments and contract term are fixed from the start.

Individual contract design

The individual contract design with regard to term, amortisation and payment flow, and method of payment makes it possible to adapt to different needs.

Please ask us for your personal quotation!

Workshop equipment

Vice/work mats

Vices – with tubular clamping jaws and turntable

- ▶ Quality vices opening to the front made of break-proof cast iron
- ▶ Replaceable clamping jaws with grooved teeth
- ▶ Adjustable guide for parallel clamping
- ▶ With removable pipe-clamping jaws
- ▶ Large, anvil surface for smaller straightening and ramming work
- ▶ Spindle guide in housing offers optimum protection against damage and soiling
- ▶ Foot rotates continuously through 360° with locking option
- ▶ Painted in hammer effect blue

Part washing unit TWG 1 – closed design for thorough cleaning of complex parts

Optimum cleaning even in places that a brush or cloth cannot touch

- ▶ Even complex automotive parts can be quickly and easily cleaned and degreased before soldering or painting
- ▶ Gun with high working pressure for fast cleaning and blowing out
- ▶ Optimum view of the work area thanks to bright interior lighting and large view window

Clean work

- ▶ The closed design means that the dirt stays in the cabin
- ▶ A ventilator ensures clean air in the interior
- ▶ Comfortable protective gloves integrated into housing

Well thought-out details

- ▶ Large, smooth action lid for fast and easy loading and unloading
- ▶ The cabin fits on any workbench thanks to its compact design
- ▶ Screen, support grid and water tank are easily removable
- ▶ Single compressed air connection on right side of cabin

- ▶ Thorough cleaning of complex parts
- ▶ Cleaning gun with dual function
- ▶ Compact design

Cleaning gun with dual function, cleaning and blowing out

The cabin fits on any workbench thanks to its compact design

Large, smooth action lid for fast and easy loading and unloading

Optimum view of the work area thanks to bright interior lighting and large view window

Sandblasting cabinets

SSK Series - Sandblasting cabins for clean blasting work without soiling the work environment

- ▶ Suitable for a variety of blasting agents, e.g. quartz, glass peen shot, plastic peen shot, and more
- ▶ Ideal for paint removal or for cleaning and rust removal on metal parts of any type
- ▶ Premium latex work gloves fastened on housing
- ▶ View window and adhesion-bonded protective film, for the best possible view and

- occupational protection while processing the workpiece
- ▶ Cover and door frame featuring all-around seals for dust-free work
- ▶ With stable grid shelf for depositing workpieces on the inside of the cabinet
- ▶ With drain opening for changing the blasting agent

- ▶ Extraction hose for blasting agent fastened on bottom of catchment container
- ▶ With external compressed air coupling
- ▶ Glass bead blasting agent, corundum blasting agent, silicon carbide, plastic blasting agent and many others usable

SSK 1

- ▶ 12-volt neon tube with 230-volt power supply and external switch

Scope of delivery SSK 1/2/2.5/3.1/4:

- ▶ Premium blasting gun with ceramic nozzle
- ▶ 5 replacement films for view window
- ▶ **SSK 1/2/3.1/4 :** 4 ceramic nozzles (4 / 5 / 6 / 7 mm)
- ▶ **SSK 2.5:** 4 ceramic nozzles (2 x 6 mm/ 2 x 7 mm)

SSK 1.5

- ▶ Maximum working pressure controllable via pressure controller with pressure gauge
- ▶ Air flow controlled via foot pedal
- ▶ 12-volt neon tube with 230-volt power supply and external switch
- ▶ Integrated extraction unit with replaceable air filter

Scope of delivery SSK 1.5:

- ▶ 3 ceramic nozzles (3.5 mm)
- ▶ 3 replacement films for view window

SSK 2

- ▶ One large door on the side for loading and unloading
- ▶ Two exhaust air openings (1 exhaust air connection ø 92 mm and 1 exhaust air duct ø 64 mm) for connecting to an extraction unit
- ▶ 12-volt neon tube with 230-volt power supply and external switch

SSK 2.5

- ▶ Two large doors for loading and unloading at both sides, also for longer workpieces
- ▶ Integrated extraction unit with replaceable air filter
- ▶ Air flow controlled via foot pedal
- ▶ Two blasting guns: one fixed and one freely-movable blasting gun
- ▶ Three separate switches for on/off, extraction and cell lighting
- ▶ Two neon tubes (230-volt), in separate housing with protective pane and replaceable protective film, including 5 replacement films
- ▶ Maximum working pressure controllable via pressure controller with pressure gauge

Fig. shows SSK 3.1 featuring a very large front flap which opens upward

SSK 3.1/SK 4:
Integrated extraction unit with replaceable air filter

SSK 3.1

- ▶ Very large front hood opens upward for fast and easy loading and unloading
- ▶ Integrated extraction unit with replaceable air filter
- ▶ Blasting gun without trigger - air flow controlled via foot pedal
- ▶ Two neon tubes (230-volt), in separate housing with protective pane and replaceable protective film, including 5 replacement films
- ▶ Light switch with dual function: extraction and cabin lighting are switched on and off at the same time
- ▶ Maximum working pressure controllable via pressure controller with pressure gauge

SSK 4

- ▶ Very large front hood opens upward for fast and easy loading and unloading
- ▶ Integrated extraction unit with replaceable air filter
- ▶ Blasting gun without trigger - air flow controlled via foot pedal
- ▶ Four neon tubes (230-volt), in separate housing with protective pane and replaceable protective film, including 5 replacement films
- ▶ Two separate switches for on/off, extraction and cell lighting
- ▶ Maximum working pressure controllable via pressure controller with pressure gauge
- ▶ Cross-beams on base allow for easy transport with a pallet truck

Mobile fans

Serie MV – portable axial ventilators

- ▶ Supply fresh air to poorly ventilated or closed rooms, such as cellars
- ▶ Extraction of moist air, hot air, welding fumes, smoke, exhaust gases, or odours
- ▶ Useful for cooling, aerating, drying and air circulation in large rooms such as factory shops, workshops, warehouses, building sites, etc.
- ▶ High-density polypropylene housing for great durability
- ▶ Large impeller generates high air volume

Accessories

- ▶ Aeration, ventilation and air recirculation, also over longer distances after connecting the air transport hoses available as accessories
- ▶ Longer hose distances possible by connecting multiple air transport hoses

LEF series – reliable and efficient dryers

- ▶ Suitable for drying buildings, moist rooms, e.g., after water damage or on building sites
- ▶ Prevents condensation and mould growth
- ▶ Mobile, impact-proof housing for great durability
- ▶ Equipped with temperature control, thawing control, self-monitoring system, automatic hygrostatic control, and environmentally-friendly refrigerant R410A
- ▶ Control unit equipped with Smart-Touch buttons, countdown display and operating hours counter
- ▶ With removable and washable filters for use in dusty rooms
- ▶ Automatic restart in case of power outage
- ▶ Powerful but with low power consumption
- ▶ With outlet duct ports
- ▶ Low noise level
- ▶ With practical cable holder
